Investigation Conducted

• The other record was examined: Raw text: DELHI POLICE; Case: FIR/2024/DL/PSRKP/0452; OFFICIAL DOCUMENT; Page 1; This document is a true copy of the original record; Generated: 13-08-2026 18:18 Confidential - For Official Use Only; ACCUSED STATEMENT - 161 CRPC; Case: FIR/2024/DL/PSRKP/0452; Date: 13-08-2026; ; ACCUSED STATEMENT; Statement Id: AS/PSRKP/0452/001; Date Of Recording: 2024-10-15; Time Of Recording: 22:30; Place: Lock-up Room, PS Rajinder Nagar; Recorded By: Inspector Suresh Chandra; Witness To Recording: ASI Ramphal Singh, PS Rajinder Nagar; ACCUSED DETAILS; Accused Id: ACC-001; Name: Amit Verma; Age: 28; Father Name: Ramesh Verma; Mother Name: Savitri Verma; Occupation: Food Delivery Rider, Zomato (Delivery Partner ID: ZOM/DL/478923); Education: 12th Pass; Marital Status: Unmarried; Address: C-54, Gali No. 4, Old Rajinder Nagar, New Delhi - 110060; Native Place: Village Dhakiya, Post Bhawalkheda, Distt. Moradabad, Uttar Pradesh; Aadhar Number: 7234 5678 9012; Contact: 9871123456; RIGHTS READ; Article 20 3 Read: True; Right To Silence: True; Right To Legal Counsel: True; Accused Understood Rights: True; Statement Text: I, Amit Verma, s/o Ramesh Verma, state that I work as delivery partner with; Zomato. On 15th October 2024, I was delivering orders. At around 6:15 PM, I picked up an order; from Haldiram's in Karol Bagh. The order was to be delivered in Old Rajinder Nagar, near Bada; DELHI POLICE; Case: FIR/2024/DL/PSRKP/0452; OFFICIAL DOCUMENT; Page 2; This document is a true copy of the original record; Generated: 13-08-2026 18:18 Confidential - For Official Use Only; Bazaar within 20 minutes. I was going on my Pulsar motorcycle DL2SBP1234. The traffic signal at; Shankar Road T-point was not working and there was a traffic policeman managing it. I was in a; hurry to deliver the order because if I am late, my incentive gets cut. I admit that my speed was; somewhat more but I thought I could cross the junction before the scooter turned. When I reached; near the hospital T-point, I saw a white Activa scooter was turning from the other side. I tried to; apply brakes but the distance was less and my bike collided with the scooter. I also fell down. When; I got up, I saw the scooter rider was lying on the road and was

injured. I got scared. The traffic; policeman came and caught me. I was not trying to run away, I was just picking up my bike which; had fallen. I admit my mistake. I should not have ridden at that speed. I had delivered 18 orders; since morning and was tired. Please forgive me, I am a poor person. I have old parents in village. I; will not repeat such mistake in future. I will bear all medical expenses of the injured person.; Whatever happened was not intentional, it was a mistake because of hurry. I am ready to cooperate; with the investigation.; CONFESSION ELEMENTS; Admits Overspeeding: True; Admits Rashness: False; Claims Accidental: True; Shows Remorse: True; Offers Compensation: True; Statement Read Back: True; Accused Confirmed Statement: True; Signature Accused: Amit Verma (Signed in Hindi); Witness Signature: ASI Ramphal Singh; Io Signature: Suresh Chandra, Inspector; Remarks: Statement recorded voluntarily without any coercion. Accused was informed of his rights.; Legal aid lawyer provided from DLSA was present during recording. Statement consistent with; evidence collected.

Total pages: 93 plus digital evidence. All; documents are filed with the chargesheet.; Signature: Inspector Suresh Chandra, IO.

- The arrest memo record was examined: Memo No.: ARR/PSRKP/2024/0452; Arrest Date and time: 15 October 2024, 19:15; Arrested person name: Amit Verma; Arrest location: Shankar Road T-Point, Near St. Stephen's Hospital, Rajinder Nagar, New Delhi; Arresting officer name: Inspector Suresh Chandra.

- The case diary record was examined: Officer name: Inspector Suresh Chandra; Entries: Entry No.: CD-01; Entry Date and time: 15 October 2024, 19:30; Text:; Received DD No. 24-A dated 15-10-2024 regarding accident at Shankar Road T-Point at 18:20 hours. Proceeded to spot. PCR already present. Victim shifted to St. Stephen's Hospital. Accused detained at spot by Traffic Constable Mohammed Asif. Conducted preliminary inquiry at spot. Collected initial evidence. Registered FIR No. 452/2024 under sections 281/125 BNS and 184/134 MV Act on complaint of Smt. Sunita Sharma, wife of victim. Arrested accused Amit Verma at 19:15 hours from spot. Conducted personal search, prepared arrest memo. Accused sent for medical examination to RML Hospital through Constable Rajesh. Victim's MLC obtained from St. Stephen's Hospital - grievous injuries noted. IO to hospital, recorded victim's medical status. Returned to spot for detailed panchnama.; Exhibits Collected: Vehicle DL2SBP1234, DL5SCT5678, accused's mobile, both DLs, helmets; Statements Recorded: Complaint of Sunita Sharma, Statement of HC Mohammed Asif (eyewitness), Statement of Prakash Joshi (eyewitness); Entry No.: CD-02; Entry Date and time: 15 October 2024, 21:00; Conducted detailed spot panchnama at Shankar Road T-Point from 21:00 to 22:15 hours in presence of panch witnesses Mohammed Asif and Prakash Joshi. Took measurements of road width (12.5m Shankar Road, 10m Rajinder Nagar Road), vehicle positions, skid marks (4.2m from Pulsar), blood stains, debris field. Identified impact point 6.5m from Shankar Road stop line. Photographed scene - 25 digital frames by HC Ramesh Kumar. Collected broken vehicle parts, helmets, delivery bag. Arranged for both vehicles to be towed to PS Malkhana yard. Noted non-functional traffic signal, 4 of 6 street lights working. Panchnama completed at 22:15 hours.; Exhibits Collected: Broken parts, helmets, delivery bag, blood samples (through hospital); Photographs: 25 digital frames; Entry No.: CD-03; Entry Date and time: 15 October 2024, 22:30; Accused Amit Verma produced before me in lock-up. Informed him of his rights under Article 20(3) of Constitution and right to legal counsel. Accused opted to give voluntary statement without lawyer. Recorded detailed statement of accused in presence of ASI Ramphal Singh as witness. Accused admitted overspeeding and stated he was in hurry to deliver Zomato order. Showed remorse. Statement recorded verbatim. Accused remanded to judicial custody. Duty Magistrate informed telephonically. Accused to be produced before Ld. MM tomorrow.; Statements Recorded: Accused statement of Amit Verma; Entry No.: CD-04; Entry Date and time: 16 October 2024, 09:00; Morning: Directed ASI Rajender Prasad (MTO) to conduct detailed mechanical inspection of both vehicles. Inspection conducted 10:00-13:30 in Malkhana yard. Report received - both vehicles roadworthy before accident, damage consistent with collision dynamics, Pulsar speedometer stuck at 55 kmph. Mid-day: Visited St. Stephen's Hospital security office. Collected CCTV DVR hard disk from Gate 2 camera (CAM-SSH-G2-03) covering junction. Obtained footage from 18:00-18:45 hours. Chain of custody documented. Also visited Canara Bank ATM, Shankar Road. Bank Manager Mr. S. Venkatesh provided CCTV copy on pen drive showing approach road. Obtained PCR Van Z-45 dashcam SD card from ASI Dharampal. All digital evidence submitted to HC

Ramesh Kumar, Technical Cell for analysis.; Exhibits Collected: CCTV DVR (EVD-0452-013), CCTV Pen Drive (EVD-0452-014), PCR Dashcam SD (EVD-0452-015); Reports Received: Vehicle Inspection Report from ASI Rajender Prasad; Entry No.: CD-05; Entry Date and time: 16 October 2024, 15:00; Visited St. Stephen's Hospital SICU. Met treating doctor Dr. Anjali Mehta. Victim Rajesh Sharma still in ICU, post-surgery for femur fracture. Also underwent craniotomy for SDH evacuation on 16-10-2024 morning. Condition critical but stable. Doctor confirmed injuries are grievous in nature and dangerous to life. Obtained detailed MLC and medical records. Collected victim's blood sample for FSL (alcohol/drug screening - negative as per hospital). Met complainant Sunita Sharma at hospital, briefed her on investigation progress. Advised her to preserve all medical bills and records for court.; Documents Obtained: MLC Report, Admission records, Surgery notes; Entry No.: CD-06; Entry Date and time: 17 October 2024, 10:00; HC Ramesh Kumar completed CCTV footage analysis. Report confirms: Pulsar overspeeding (60 kmph on approach, 52-58 at impact), ignored traffic constable's stop signal, collision at 18:20:07.800 hours. Activa at normal turning speed (10 kmph), legal turn. Footage from 3 cameras synchronized and consistent. Prepared detailed CCTV analysis report with frame-by-frame speed calculation. All exhibits packed and sealed for FSL examination: vehicles, helmets, broken parts, blood samples, photographs SD card, CCTV HDD. Dispatched to FSL Rohini through Constable Mohan Singh with Road Certificate No. 234/2024 dated 17-10-2024. FSL requisition letter prepared detailing examination required.; Reports Received: CCTV Analysis Report; Exhibits Sent Fsl: EVD-0452-001, 002, 006, 007, 008, 010, 011, 012, 013; Entry No.: CD-07; Entry Date and time: 18 October 2024, 10:00; Produced accused Amit Verma before Ld. Metropolitan Magistrate, Tis Hazari Courts. Filed application for 3-day police custody remand for further investigation - need to recover Zomato delivery records, verify accused's mobile data, and conduct test identification parade. Court granted 2 days PC remand. Accused remanded to police custody till 20-10-2024. Also filed application for preservation of CCTV footage from other cameras on route. Court directed concerned authorities to preserve footage for 30 days.; Court Orders: PC Remand for 2 days, CCTV preservation order; Entry No.: CD-08; Entry Date and time: 19 October 2024, 10:00; During PC remand, extracted data from accused's smartphone (Samsung M32) with technical assistance from IT Cell. Recovered: Zomato Partner App data showing order accepted at 18:10, pickup from Haldiram's Karol Bagh at 18:15, delivery address in Old Rajinder Nagar with deadline 18:35. GPS location history shows speeds of 55-65 kmph on Shankar Road segment. Also recovered Google Maps timeline confirming route and speeds. Obtained Zomato records through official communication to Zomato's nodal officer - confirmation of accused's delivery partner ID, order details, and delivery attempt at 18:35 which was marked 'delayed'. Mobile call log shows no calls at time of accident - accused not distracted by phone call, but was possibly looking at navigation. Phone mounted on handlebar confirmed.; Digital Evidence: Zomato Partner App data, Google Maps Timeline, GPS speed logs; Entry No.: CD-09; Entry Date and time: 20 October 2024, 10:00; Test Identification Parade not conducted as accused identified by witnesses at spot itself. Section 164 CrPC statement of witnesses not deemed necessary. Accused produced before Ld. MM on expiry of PC remand. Accused not applying for bail at this stage. Court sent accused to judicial custody. Investigation continued. Visited traffic police circle office, obtained record of complaint filed by Constable Asif about non-functional signal on 13-10-2024. Also obtained duty roster confirming Asif's deployment at Shankar Road T-Point on 15-10-2024 from 16:00-20:00 hours.; Documents Obtained: Traffic signal complaint record, Duty roster; Entry No.: CD-10; Entry Date and time: 25 October 2024, 11:00; Visited St. Stephen's Hospital. Victim shifted from ICU to general ward on 24-10-2024. Conscious and oriented. Recorded supplementary statement of victim under Section 161 CrPC. Victim states he was returning home from office, wearing helmet, driving at 30-35 kmph, took right turn at T-point when suddenly a speeding motorcycle hit him. He does not remember anything after that. Victim's statement corroborates evidence. Doctor indicates another 2 weeks hospitalization needed. Physiotherapy to follow. Permanent disability not ruled out for right leg.; Statements Recorded: Supplementary statement of victim Rajesh Sharma; Entry No.: CD-11; Entry Date and time: 05 November 2024, 14:00; Background verification of accused conducted through local inquiry at Old Rajinder Nagar address and native village in Moradabad, UP through UP Police. Accused has no previous criminal record. Living in Delhi for 5 years. Working with Zomato for 2 years. Two-wheeler driving experience 7 years. No previous traffic challans in Delhi (verified from e-challan portal). However, one challan for overspeeding in Moradabad in 2022 (paid). Landlord confirms accused is of good character. No history of rashness or alcoholism. Accused's father is a marginal farmer. Family background verified.; Documents Obtained: Background verification report, E-challan portal screenshot; Entry No.: CD-12; Entry Date and time: 15 November 2024, 10:00; Received preliminary FSL report from Dr. Priya Nambiar. Key findings: Speed at impact 52-58 kmph for Pulsar, victim's helmet prevented skull fracture but sustained significant impact, blood alcohol negative for both, vehicle damage consistent with collision dynamics, paint transfer confirmed. Accident reconstruction confirms primary fault of Pulsar rider. Formal report awaited. Preliminary findings included in case file for reference.; Reports Received: Preliminary FSL findings (verbal and email); Entry No.: CD-13; Entry Date and time: 18 November 2024, 12:00; Received final FSL Report No. FSL/DL/2024/PHY/8934 dated 18-11-2024. Complete forensic examination confirms all investigation findings. Report includes vehicle examination, helmet analysis, blood analysis, accident reconstruction, and CCTV

correlation. All exhibits returned from FSL to Malkhana. FSL report made part of case file. Key conclusions: (1) Accident caused by overspeeding of Pulsar (52-58 kmph vs 40 kmph limit), (2) Victim had no contributory negligence, (3) Helmet saved victim from fatal head injury, (4) Both vehicles mechanically sound before accident.; Reports Received: FSL Report No. FSL/DL/2024/PHY/8934; Entry No.: CD-14; Entry Date and time: 22 November 2024, 10:00; Victim Rajesh Sharma discharged from hospital on 20-11-2024 after 36 days of treatment. Obtained final discharge summary and fitness certificate. Victim advised 3 months physiotherapy, follow-up in Ortho and Neuro OPD. Permanent disability assessment after 6 months. Recorded final statement of victim regarding expenses incurred (approximately ■4.2 lakhs medical expenses), loss of salary (3 months leave without pay), and ongoing treatment needs. Victim expresses desire for compensation and strict punishment to accused. Documents collected for Victim Compensation Scheme application.; Statements Recorded: Final victim statement; Documents Obtained: Discharge summary, Medical bills, Salary slips, Physiotherapy prescription; Entry No.: CD-15; Entry Date and time: 28 November 2024, 10:00; Investigation complete. All evidence collected, statements recorded, forensic reports received. Prima facie case well established against accused Amit Verma for offences under Section 281 BNS (Rash driving), Section 125 BNS (Act endangering life), Section 184 MV Act (Dangerous driving), and Section 134 MV Act (Failure to provide medical aid - accused did not actively assist victim though he was also injured, however the attempt to leave initially constitutes violation). Evidence list finalized - 15 exhibits. Case diary complete with 15 entries. All documents compiled and indexed in Annexures. Investigation reveals: Accused was overspeeding (52-58 kmph in 40 kmph zone), ignored traffic constable's manual stop signal, was in hurry to meet food delivery deadline, and due to high speed could not stop in time to avoid collision with victim's scooter who was making a legal turn at appropriate speed. Victim suffered grievous injuries requiring 36 days hospitalization and may have permanent disability. No contributory negligence by victim. Accused has no criminal history but his actions show disregard for traffic rules and public safety. Prepared final investigation report recommending filing of chargesheet before Hon'ble Court under above sections. Report submitted to ACP, Patel Nagar Sub-Division for supervisory review and approval.; Reports Prepared: Investigation Completion Report, Draft Chargesheet; Submitted To: ACP Patel Nagar for approval; Case Diary Certification: Certified that this case diary contains a true and complete account of investigation conducted by me in case FIR No. 452/2024 PS Rajinder Nagar. All dates, times, and actions are recorded contemporaneously.; Io Signature: Inspector Suresh Chandra; Supervisory Remarks: Investigation thorough and complete. Chargesheet approved for filing. - ACP Patel Nagar, 28-11-2024.

side (bottom right), speed estimated 10-12 kmph, right turn indicator blinking; Item 4:; Timestamp: 18:20:05; Camera: CAM-SSH-G2-03; Observation: Red Bajaj Pulsar enters frame from left (Shankar Road), speed estimated 55-60; kmph by frame analysis, rider in red t-shirt, delivery bag on rear seat; Item 5:; Timestamp: 18:20:06; Camera: CAM-SSH-G2-03; Observation: Constable's left hand raised in STOP gesture facing Shankar Road traffic. Activa; continues turn slowly.; Item 6:; Timestamp: 18:20:07.250; Camera: CAM-SSH-G2-03; Observation: Pulsar crosses stop line (painted white, visible on road) at speed, does not; decelerate. Approximate distance to Activa: 12-15m; Item 7:; Timestamp: 18:20:07.500; Camera: CAM-SSH-G2-03; Observation: Pulsar front wheel visible, slight wobble - possible late brake application. Activa; almost at center of junction.; Item 8:; Timestamp: 18:20:07.800; Camera: CAM-SSH-G2-03; Observation: IMPACT - Front right of Pulsar strikes right center of Activa. Both vehicles and riders; visible.; Item 9:; Timestamp: 18:20:08.100; Camera: CAM-SSH-G2-03; DELHI POLICE; Case: FIR/2024/DL/PSRKP/0452; OFFICIAL DOCUMENT; Page 4; This document is a true copy of the original record; Generated: 13-08-2026 18:18 Confidential - For Official Use Only; Observation: Activa rider airborne, thrown approximately 3-4m to right, lands near road edge.; Pulsar falls right side.; Item 10:; Timestamp: 18:20:08.500; Camera: CAM-SSH-G2-03; Observation: Pulsar rider hits ground, slides approximately 1m. Attempts to get up immediately.; Item 11:; Timestamp: 18:20:10; Camera: CAM-SSH-G2-03; Observation: Constable running towards fallen vehicles, gestures at Pulsar rider shouting (audio; not available); Item 12:; Timestamp: 18:20:14; Camera: CAM-SSH-G2-03; Observation: Constable reaches Pulsar rider who is now standing, grabs his right arm firmly; Item 13:; Timestamp: 18:20:18; Camera: CAM-SSH-G2-03; Observation: Public persons (5-6 people) gather around. One person (later identified as Prakash; Joshi) comes from tea stall direction.; Item 14:; Timestamp: 18:20:45; Camera: CAM-SSH-G2-03; Observation: Constable seen making phone call (PCR call at 18:21 corroborated); Item 15:; Timestamp: 18:22:30; Camera: CAM-SSH-G2-03; Observation: People trying to assist victim lying on road. Helmet being carefully removed by; someone.; Item 16:; Timestamp: 18:24:15; DELHI POLICE; Case: FIR/2024/DL/PSRKP/0452; OFFICIAL DOCUMENT; Page 5; This document is a true copy of the original record; Generated: 13-08-2026 18:18 Confidential - For Official Use Only; Camera: CAM-SSH-G2-03; Observation: PCR call visible in constable's call log timestamp in later verification; Item 17:; Timestamp: 18:31:10; Camera: CAM-SSH-G2-03; Observation: PCR Van Z-45 arrives at scene, parks near junction. Two PCR personnel exit; vehicle.; Item 18:; Timestamp: 18:35:40; Camera: CAM-SSH-G2-03; Observation: Ambulance from St. Stephen's Hospital (Gate 2) arrives at scene. Medical team (2; persons with stretcher) attends to victim.; Item 19:; Timestamp: 18:42:00; Camera: CAM-SSH-G2-03; Observation: Victim loaded onto stretcher, ambulance departs towards hospital emergency; entrance.; CCTV 002 CANARA BANK ATM; Item 1:; Timestamp: 18:19:35; Camera: CAM-CB-ATM-01; Observation: Red Pulsar motorcycle enters frame from left side (Karol Bagh direction), passing; ATM at high speed. Rider visible: red t-shirt, delivery bag, black helmet.; Item 2:; Timestamp: 18:19:42; Camera: CAM-CB-ATM-01; Observation: Pulsar continues towards T-point. Speed calculated by frame analysis: covers 30m in; 1.8 seconds = 60 kmph average over this stretch.; Item 3:; Timestamp: 18:19:50; Camera: CAM-CB-ATM-01; DELHI POLICE; Case: FIR/2024/DL/PSRKP/0452; OFFICIAL DOCUMENT; Page 6; This document is a true copy of the original record; Generated: 13-08-2026 18:18 Confidential - For Official Use Only; Observation: Pulsar out of frame towards junction. No brake light activation visible at any point in; this segment.; Item 4:; Timestamp: 18:20:15; Camera: CAM-CB-ATM-01; Observation: Audio spike detected in ATM microphone (crash sound). ATM security guard (seen; in frame) turns head towards junction direction.; Item 5:; Timestamp: 18:20:20; Camera: CAM-CB-ATM-01; Observation: Two passersby seen running towards junction.; CCTV 003 PCR DASHCAM; Item 1:; Timestamp: 18:24:05; Camera: PCR-DASH-Z45; Observation: PCR van receives dispatch: 'Accident at Shankar Road T-point near St. Stephen's; Hospital. Two-wheeler collision. Injury reported. Proceed code 2.'; Item 2:; Timestamp: 18:31:05; Camera: PCR-DASH-Z45; Observation: PCR arrives at scene. Crowd visible at junction. Red and white two-wheelers visible; in fallen positions.; FRAME BY FRAME SPEED ANALYSIS; Method: Speed calculated using known distance reference points (road markings measured during; spot panchnama) and frame counting (25 fps). Formula: Speed (kmph) = (Distance in meters /; Number of frames) x 90.; CALCULATIONS; Item 1:; Vehicle: Bajaj Pulsar DL2SBP1234; Segment: 50m to 20m before stop line (CCTV-002); Distance: 30; DELHI POLICE; Case: FIR/2024/DL/PSRKP/0452; OFFICIAL DOCUMENT; Page 7; This document is a true copy of the original record; Generated: 13-08-2026 18:18 Confidential - For Official Use Only; Frames: 45; Time: 1.8 seconds; Speed: 60.0 kmph; Item 2:; Vehicle: Bajaj Pulsar DL2SBP1234; Segment: 20m before stop line to impact (CCTV-001); Distance: 24; Frames: 55; Time: 2.2 seconds; Speed: 52.4 kmph (slight deceleration - possible late braking); Item 3:; Vehicle: Honda Activa DL5SCT5678; Segment: Enters junction to impact point; Distance: 8; Frames: 72; Time: 2.88 seconds; Speed: 10.0 kmph (normal turning speed); Conclusion: CCTV footage analysis conclusively establishes that the accused was riding at; excessive speed (52-60 kmph in a 40 kmph zone), ignored the traffic constable's manual stop; signal, and failed to brake in time to avoid collision. The victim was riding at appropriate speed and; was executing a legal turn. Footage corroborates eyewitness statements in all material particulars.; Time stamps from all three cameras are synchronized and consistent. No tampering or editing; detected in any footage.; Certification: I hereby certify that the above CCTV analysis

is true and correct based on the; footage examined. The original footage is preserved in evidence.; Signature: HC Ramesh Kumar, Technical Cell, PS Rajinder Nagar; Date: 2024-10-17.

Malkhana, PS Rajinder Nagar; Status: In Police Custody; Item 15:; Evidence Id: EVD-0452-015; Type: Digital; Description: PCR Van Z-45 Dashcam Footage - SD Card 64GB; Quantity: 1 SD Card; Collected From: PCR Van Z-45, Incharge ASI Dharampal; Collected By: Inspector Suresh Chandra; Date Time Collection: 2024-10-16, 11:00; Packaging: Sealed envelope; Seal Number: SC-15; Current Location: Malkhana, PS Rajinder Nagar; Status: In Police Custody; Evidence Summary: Total 15 evidence items collected. 3 physical vehicles/parts, 2 documentary,; 2 biological, 4 digital, 4 physical items. All evidence properly documented, sealed, and stored per; Delhi Police Evidence Manual. Chain of custody maintained throughout.; Io Declaration: I certify that all evidence listed above was collected by me or under my direct; supervision, properly documented, and is material to the investigation of this case. No evidence has; been tampered with or contaminated.; Signature: Inspector Suresh Chandra, IO.

- The FIR record was examined: FIR No.: FIR/2024/DL/PSRKP/0452; Registration date: 15 October 2024; Police station: Rajinder Nagar Police Station; Complainant name: Sunita Sharma; Accused names: Amit Verma; Victim names: Rajesh Kumar Sharma; Vehicle registrations: DL2SBP1234; DL5SCT5678; Occurrence Date and time: 15 October 2024, 18:20; Occurrence location: Shankar Road T-Point, Near St. Stephen's Hospital Gate No. 2, Rajinder Nagar, New Delhi; Jurisdiction: Central Delhi; Court: Ld. Metropolitan Magistrate, Tis Hazari Courts; Reported sections: Section 281; Section 125; Section 184; Section 134.

- The forensic report was examined: Report No.: FSL/DL/2024/PHY/8934; Report date: 18 November 2024; Laboratory name: Forensic Science Laboratory, Rohini, New Delhi - 110085; Examined items: Exhibit No: EX-01, Evidence Id: EVD-0452-001, Description: Bajaj Pulsar 220F Motorcycle DL2SBP1234; Exhibit No: EX-02, Evidence Id: EVD-0452-002, Description: Honda Activa 6G Scooter DL5SCT5678; Exhibit No: EX-03, Evidence Id: EVD-0452-006, Description: Helmet - Accused (Steelbird, Black); Exhibit No: EX-04, Evidence Id: EVD-0452-007, Description: Helmet - Victim (Vega, White); Exhibit No: EX-05, Evidence Id: EVD-0452-008, Description: Broken vehicle parts from site; Exhibit No: EX-06, Evidence Id: EVD-0452-010, Description: Blood sample - Accused (BLD-0452-A); Exhibit No: EX-07, Evidence Id: EVD-0452-011, Description: Blood sample - Victim (BLD-0452-B); Exhibit No: EX-08, Evidence Id: EVD-0452-012, Description: Digital photographs (SD Card, 32GB); Exhibit No: EX-09, Evidence Id: EVD-0452-013, Description: CCTV DVR Hard Disk (1TB); Findings: Speedometer: Needle stuck at 55 kmph (indicates approximate speed at impact); Headlight: Smashed, filament examination shows 'hot shock' deformation confirming light was ON at time of impact; Front Wheel: Rim bent, tyre burst on right side; Brake System: Front disc brake functional, rear drum brake functional. Brake lever in applied position consistent with emergency braking; Impact Force Calculated: Approximately 18-22 kN based on deformation pattern; Paint Evidence: White paint transfer on right front fork matching Activa body color; Right Side Impact: Deformation depth 25cm on right body panel indicating lateral impact force; Paint Evidence: Red paint transfer on right side panel matching Pulsar color; Brake Lever: Right brake lever bent due to impact, position suggests braking attempt; Tyres: Both tyres in good condition, adequate tread depth (3.5mm front, 4.0mm rear); Conclusion: Primary impact was between front-right portion of Pulsar and right-center portion of Activa at an angle of 70-80 degrees. Pulsar was traveling at minimum 50-55 kmph at moment of impact. Both vehicle brake systems were functional prior to accident. Impact force sufficient to cause grievous injuries to rider of Activa.; Outer Shell: Multiple impact marks on right temporal and parietal region. Deep gouge 4cm long on right side; Inner Liner: Compressed on right side indicating absorption of impact energy; Chin Strap: Intact and fastened at time of impact (tear pattern confirms); Blood: Blood stains inside helmet, Group B+ confirmed; Hair: Scalp hair fragments with root, suitable for DNA; Cracks: Two linear cracks on outer shell right side, 8cm and 5cm, indicating impact absorption; Effectiveness: Helmet prevented direct skull fracture. Damage pattern consistent with head impact on road surface; Outer Shell: Minor scratches on left side; Inner Liner: Normal, no compression; Chin Strap: Found torn - examination reveals it was already torn/damaged before accident, not due to accident forces; Conclusion: Helmet not properly secured at time of accident. Scratches consistent with minor fall.; Blood Group: B+; Alcohol: Not detected (0 mg/dL); Drugs Toxicology: Negative for all screened substances; Dna Profile: Extracted and preserved for identification; Blood Group: O+; Pre Impact Scenario: Pulsar traveling SW to NE on Shankar Road towards junction. Activa traveling from Rajinder Nagar side and executing right turn towards Old Rajinder Nagar.; Impact Configuration: Pulsar front collides with right center of Activa at intersection. Impact angle 75 degrees.; Post Impact Dynamics: Activa rider thrown to right side, landing 4.2m from impact point. Pulsar falls to right side, slides 3.1m. Pulsar rider falls to left, minimal travel distance.; Speed At Impact: Pulsar: 52-58 kmph (calculated from skid mark length 4.2m, friction coefficient 0.7 for dry bitumen, and residual impact velocity from damage analysis). Activa: 8-12 kmph (typical turning speed).; Avoidability: At speed of 40 kmph (legal limit), Pulsar could have stopped in 15.5m total (thinking + braking distance). From skid mark evidence, Pulsar was at least 8m from impact point when emergency braking initiated. At legal speed, collision was avoidable. At actual speed (55 kmph), stopping distance required was 25m, making collision unavoidable from point where braking started.; Violation: Speed exceeding legal limit was the primary causative factor. Signal violation/secondary as signal was non-functional but traffic police manual

direction was ignored.; 18:20:03 - White Activa enters frame from bottom (Rajinder Nagar side), speed low, indicator blinking for right turn; 18:20:05 - Red Pulsar enters frame from left (Shankar Road, Karol Bagh side), speed visibly high; 18:20:06 - Traffic constable visible at junction, left hand raised signaling STOP for Shankar Road traffic; 18:20:07 - Pulsar does not stop, continues at same speed into junction; 18:20:07.5 - Pulsar front collides with right side of Activa; 18:20:08 - Activa rider airborne, falls near road edge; 18:20:09 - Pulsar rider falls, gets up at 18:20:12; 18:20:14 - Constable runs towards Pulsar rider; 18:20:18 - Constable grabs Pulsar rider by arm; Time stamp verified: Camera clock accurate within 2 seconds of IST; 18:19:45 - Red Pulsar passes ATM at high speed, rider wearing red t-shirt, delivery bag visible; 18:19:52 - Pulsar continues towards junction (towards St. Stephen's Hospital), brake light not visible at any point; 18:20:30 - Several people seen running towards junction; Conclusion: CCTV footage corroborates witness statements. Confirms overspeeding, disregard of traffic police signal, and sequence of collision. Time stamps consistent with timeline.

- The medical record was examined: Report No.: FIR/2024/DL/PSRKP/0452; Report date: 13 August 2026; Patient name: Rajesh Kumar Sharma; Doctor name: Dr. Anjali Mehta; Hospital name: St. Stephen's Hospital, Tis Hazari, Delhi - 110054; Observations: Alleged History: Road Traffic Accident at Shankar Road T-Point at approximately 18:20 hours.; Patient riding scooter, hit by speeding motorcycle from side. Thrown off vehicle and landed on road.; Helmet worn at time of accident.; Brought Dead: False; Condition On Arrival: Conscious but disoriented, GCS 13/15 (E3 V4 M6), in severe pain, bleeding from scalp wound; Blood Pressure: 100/70 mmHg; Pulse: 112/min; Respiratory Rate: 24/min; Temperature: 98.4°F; Spo2: 94% on room air; Pain Score: 9/10; Item 1: Injury Id: INJ-001, Type: Laceration, Location: Scalp, right parietal region, Size: 6cm x 2cm x 1cm deep, Description: Irregular wound with active bleeding, visible periosteum, no skull bone visible, Cause: Impact with road surface; Item 2: Injury Id: INJ-002, Type: Abrasion, Location: Face, right cheek and forehead, Size: Multiple, covering 12cm x 8cm area, Description: Road rash, dirt and debris embedded in wounds, Cause: Sliding on road surface; Item 3: Injury Id: INJ-003, Type: Closed fracture, Location: Right femur, mid-shaft, Description: Deformity of right thigh, swelling, abnormal mobility, crepitus present. X-ray confirmed comminuted fracture mid-shaft femur with displacement., Cause: Direct impact from vehicle collision; Item 4: Injury Id: INJ-004, Type: Fracture, Location: Right clavicle, middle third, Description: Tenderness and deformity over right clavicle. X-ray confirmed displaced fracture., Cause: Fall on right shoulder; Item 5: Injury Id: INJ-005, Type: Fractures, Location: Ribs 3rd, 4th, 5th on right side, anterior, Description: Chest X-ray shows fractures of right 3rd, 4th, 5th ribs anteriorly. No flail segment. Lung fields clear., Cause: Impact trauma; Item 6: Injury Id: INJ-006, Type: Abrasion, Location: Right forearm and elbow, Size: 15cm x 6cm, Description: Deep abrasion, oozing, Cause: Road contact; Item 7: Injury Id: INJ-007, Type: Abrasion, Location: Left knee, Size: 5cm x 4cm, Description: Superficial abrasion, Cause: Road contact; Test: X-Ray Skull AP and Lateral - Finding: No skull fracture. Normal study.; Test: X-Ray Right Femur AP and Lateral - Finding: Comminuted fracture mid-shaft right femur. 2.5cm shortening. Angulation present.; Test: X-Ray Right Clavicle - Finding: Displaced fracture middle third right clavicle.; Test: X-Ray Chest PA - Finding: Fracture right 3rd, 4th, 5th ribs anteriorly. No pneumothorax or hemothorax. Lung fields clear.; Test: CT Scan Head (Plain) - Finding: Small subdural hematoma right fronto-parietal region (8mm thickness, 3cm x 4cm). Midline shift 4mm to left. No mass effect. Basal cisterns patent.; Test: FAST Ultrasound Abdomen - Finding: Grade II liver laceration right lobe (3cm x 2cm). No free fluid in Morrison's pouch, splenorenal recess, or pelvis. Other organs normal.; Hemoglobin: 10.2 gm/dL; Tlc: 12000/cumm;

Platelets: 2.4 lakhs/cumm; Blood Sugar: 130 mg/dL (Random); Blood Urea: 32 mg/dL; Serum Creatinine: 0.9 mg/dL; Liver Function: Normal; Hiv Hbsag Hcv: Negative; Blood Alcohol Level: Nil (0 mg/dL); Toxicology Screen: Negative for common drugs of abuse.

Description

On 15-10-2024 at about 18:20 hours, accused Amit Verma while riding motorcycle Bajaj Pulsar DL2SBP1234 on Shankar Road in a rash and negligent manner endangering human life, coming from Karol Bagh side towards Rajinder Nagar, at T-point near St. Stephen's Hospital Gate No. 2, jumped the red light and dashed against Honda Activa DL5SCT5678 being ridden by victim Rajesh Kumar Sharma who was coming from Rajinder Nagar side and taking a legal turn towards Old Rajinder Nagar. Due to high-speed impact, victim sustained grievous injuries and was admitted to St. Stephen's Hospital in critical condition. The accused failed to provide medical aid to victim and attempted to flee but was apprehended by Traffic Constable Mohammed Asif at the spot. Medical examination of accused was conducted and case has been registered.

S.No. 3

Description

Conducted detailed spot panchnama at Shankar Road T-Point from 21:00 to 22:15 hours in presence of panch witnesses Mohammed Asif and Prakash Joshi. Took measurements of road width (12.5m Shankar Road, 10m Rajinder Nagar Road), vehicle positions, skid marks (4.2m from Pulsar), blood stains, debris field. Identified impact point 6.5m from Shankar Road stop line. Photographed scene - 25 digital frames by HC Ramesh Kumar. Collected broken vehicle parts, helmets, delivery bag. Arranged for both vehicles to be towed to PS Malkhana yard. Noted non-functional traffic signal, 4 of 6 street lights working. Panchnama completed at 22:15 hours.
Exhibits Collected: Broken parts, helmets, delivery bag, blood samples (through hospital)
Photographs: 25 digital frames

S.No. 5

Description

Morning: Directed ASI Rajender Prasad (MTO) to conduct detailed mechanical inspection of both vehicles. Inspection conducted 10:00-13:30 in Malkhana yard. Report received - both vehicles roadworthy before accident, damage consistent with collision dynamics, Pulsar speedometer stuck at 55 kmph. Mid-day: Visited St. Stephen's Hospital security office. Collected CCTV DVR hard disk from Gate 2 camera (CAM-SSH-G2-03) covering junction. Obtained footage from 18:00-18:45 hours. Chain of custody documented. Also visited Canara Bank ATM, Shankar Road. Bank Manager Mr. S. Venkatesh provided CCTV copy on pen drive showing approach road. Obtained PCR Van Z-45 dashcam SD card from ASI Dharampal. All digital evidence submitted to HC Ramesh Kumar, Technical Cell for analysis.
Exhibits Collected: CCTV DVR (EVD-0452-013), CCTV Pen Drive (EVD-0452-014), PCR Dashcam SD (EVD-0452-015)
Reports Received: Vehicle Inspection Report from ASI Rajender Prasad

S.No. 9

Description

During PC remand, extracted data from accused's smartphone (Samsung M32) with technical assistance from IT Cell. Recovered: Zomato Partner App data showing order accepted at 18:10, pickup from Haldiram's Karol Bagh at 18:15, delivery address in Old Rajinder Nagar with deadline 18:35. GPS location history shows speeds of 55-65 kmph on

Shankar Road segment. Also recovered Google Maps timeline confirming route and speeds. Obtained Zomato records through official communication to Zomato's nodal officer - confirmation of accused's delivery partner ID, order details, and delivery attempt at 18:35 which was marked 'delayed'. Mobile call log shows no calls at time of accident - accused not distracted by phone call, but was possibly looking at navigation. Phone mounted on handlebar confirmed.
Digital Evidence: Zomato Partner App data, Google Maps Timeline, GPS speed logs

S.No. 16

Description

Investigation complete. All evidence collected, statements recorded, forensic reports received. Prima facie case well established against accused Amit Verma for offences under Section 281 BNS (Rash driving), Section 125 BNS (Act endangering life), Section 184 MV Act (Dangerous driving), and Section 134 MV Act (Failure to provide medical aid - accused did not actively assist victim though he was also injured, however the attempt to leave initially constitutes violation). Evidence list finalized - 15 exhibits. Case diary complete with 15 entries. All documents compiled and indexed in Annexures. Investigation reveals: Accused was overspeeding (52-58 kmph in 40 kmph zone), ignored traffic constable's manual stop signal, was in hurry to meet food delivery deadline, and due to high speed could not stop in time to avoid collision with victim's scooter who was making a legal turn at appropriate speed. Victim suffered grievous injuries requiring 36 days hospitalization and may have permanent disability. No contributory negligence by victim. Accused has no criminal history but his actions show disregard for traffic rules and public safety. Prepared final investigation report recommending filing of chargesheet before Hon'ble Court under above sections. Report submitted to ACP, Patel Nagar Sub-Division for supervisory review and approval.
Reports Prepared: Investigation Completion Report, Draft Chargesheet
Submitted To: ACP Patel Nagar for approval
Case Diary Certification: Certified that this case diary contains a true and complete account of investigation conducted by me in case FIR No. 452/2024 PS Rajinder Nagar. All dates, times, and actions are recorded contemporaneously.
Io Signature: Inspector Suresh Chandra
Supervisory Remarks: Investigation thorough and complete. Chargesheet approved for filing. - ACP Patel Nagar, 28-11-2024

2	Honda Activa 6G Scooter, White Color Registration: DL5SCT5678 Chassis Number: ME4JF614AMT67890 Engine Number: JF61E3456789 Condition: Damaged - Right body panel scraped, right mirror broken, brake lever bent Keys: One set, found in ignition Owner: Rajesh Kumar Sharma	Not Available in Investigation Records
3	Smartphone Samsung Galaxy M32, Black Color Imei: 358123456789012 Condition: Working, screen intact Belongs To: Amit Verma (Accused)	Not Available in Investigation Records
4	Driving License - Amit Verma License Number: DL/032021/0789456 Issued By: RTO Moradabad, UP Valid Till: 28-02-2035 Category: MCWG	Not Available in Investigation Records
5	Driving License - Rajesh Kumar Sharma License Number: DL/042018/0456789 Issued By: RTO Sheikh Sarai, Delhi Valid Till: 15-07-2032 Category: MCWG + LMV	Not Available in Investigation Records
6	Helmet - Accused (Steelbird, Black, Full Face) Condition: Scratches on left side, visor missing, chin strap torn Isi Mark: Yes	Not Available in Investigation Records
7	Helmet - Victim (Vega, White, Full Face) Condition: Multiple cracks on right side, impact marks, blood stains inside Isi Mark: Yes	Not Available in Investigation Records

S.No.	Description	Exhibit
8	Broken vehicle parts from accident site DETAILS Item 1: Red plastic fairing pieces (from Pulsar) Item 2: White plastic body panel pieces (from Activa) Item 3: Right side rear view mirror (broken) Item 4: Headlamp glass fragments Collected From: Accident spot at Shankar Road T-Point	Not Available in Investigation Records
9	Zomato Delivery Bag, Red Color Condition: Empty, torn at one corner Belongs To: Amit Verma	Not Available in Investigation Records
10	Blood sample - Accused (2ml in EDTA vial) Vial Id: BLD-0452-A Collected At: RML Hospital, 19:45 hours	Not Available in Investigation Records
11	Blood sample - Victim (2ml in EDTA vial) Vial Id: BLD-0452-B Collected At: St. Stephen's Hospital, 19:30 hours	Not Available in Investigation Records
12	Photographs - Digital, 25 Frames Details: Accident spot, vehicle positions, road marks, injuries (with doctor consent) Camera: Canon EOS 1300D, PS Rajinder Nagar Photographer: HC Ramesh Kumar, Photography Section	Not Available in Investigation Records
13	CCTV Footage DVR Hard Disk Source: St. Stephen's Hospital Gate 2, Camera ID: CAM-SSH-G2-03 Capacity: 1TB Time Stamp Extracted: 18:10 to 18:35, 15-10-2024	Not Available in Investigation Records
14	CCTV Footage Pen Drive Source: Canara Bank ATM, Shankar Road Camera Id: CAM-CB-ATM-01 Time Stamp Extracted: 18:15 to 18:25, 15-10-2024	Not Available in Investigation Records

Medical Findings

- Alleged History: Road Traffic Accident at Shankar Road T-Point at approximately 18:20 hours.
- Patient riding scooter, hit by speeding motorcycle from side. Thrown off vehicle and landed on road.
- Helmet worn at time of accident.
- Brought Dead: False
- Condition On Arrival: Conscious but disoriented, GCS 13/15 (E3 V4 M6), in severe pain, bleeding from scalp wound
- Blood Pressure: 100/70 mmHg
- Pulse: 112/min
- Respiratory Rate: 24/min
- Temperature: 98.4°F
- Spo2: 94% on room air
- Pain Score: 9/10
- Item 1: Injury Id: INJ-001, Type: Laceration, Location: Scalp, right parietal region, Size: 6cm x 2cm x 1cm deep, Description: Irregular wound with active bleeding, visible periosteum, no skull bone visible, Cause: Impact with road surface
- Item 2: Injury Id: INJ-002, Type: Abrasion, Location: Face, right cheek and forehead, Size: Multiple, covering 12cm x 8cm area, Description: Road rash, dirt and debris embedded in wounds, Cause: Sliding on road surface
- Item 3: Injury Id: INJ-003, Type: Closed fracture, Location: Right femur, mid-shaft, Description: Deformity of right thigh, swelling, abnormal mobility, crepitus present. X-ray confirmed comminuted fracture mid-shaft femur with displacement.,

Cause: Direct impact from vehicle collision

- Item 4: Injury Id: INJ-004, Type: Fracture, Location: Right clavicle, middle third, Description: Tenderness and deformity over right clavicle. X-ray confirmed displaced fracture., Cause: Fall on right shoulder
- Item 5: Injury Id: INJ-005, Type: Fractures, Location: Ribs 3rd, 4th, 5th on right side, anterior, Description: Chest X-ray shows fractures of right 3rd, 4th, 5th ribs anteriorly. No flail segment. Lung fields clear., Cause: Impact trauma
- Item 6: Injury Id: INJ-006, Type: Abrasion, Location: Right forearm and elbow, Size: 15cm x 6cm, Description: Deep abrasion, oozing, Cause: Road contact
- Item 7: Injury Id: INJ-007, Type: Abrasion, Location: Left knee, Size: 5cm x 4cm, Description: Superficial abrasion, Cause: Road contact
- Test: X-Ray Skull AP and Lateral - Finding: No skull fracture. Normal study.
- Test: X-Ray Right Femur AP and Lateral - Finding: Comminuted fracture mid-shaft right femur. 2.5cm shortening. Angulation present.
- Test: X-Ray Right Clavicle - Finding: Displaced fracture middle third right clavicle.
- Test: X-Ray Chest PA - Finding: Fracture right 3rd, 4th, 5th ribs anteriorly. No pneumothorax or hemothorax. Lung fields clear.
- Test: CT Scan Head (Plain) - Finding: Small subdural hematoma right fronto-parietal region (8mm thickness, 3cm x 4cm). Midline shift 4mm to left. No mass effect. Basal cisterns patent.
- Test: FAST Ultrasound Abdomen - Finding: Grade II liver laceration right lobe (3cm x 2cm). No free fluid in Morrison's pouch, splenorenal recess, or pelvis. Other organs normal.
- Hemoglobin: 10.2 gm/dL
- Tlc: 12000/cumm
- Platelets: 2.4 lakhs/cumm
- Blood Sugar: 130 mg/dL (Random)
- Blood Urea: 32 mg/dL
- Serum Creatinine: 0.9 mg/dL
- Liver Function: Normal
- Hiv Hbsag Hcv: Negative
- Blood Alcohol Level: Nil (0 mg/dL)
- Toxicology Screen: Negative for common drugs of abuse

Forensic Findings

- Speedometer: Needle stuck at 55 kmph (indicates approximate speed at impact)
- Headlight: Smashed, filament examination shows 'hot shock' deformation confirming light was ON at time of impact
- Front Wheel: Rim bent, tyre burst on right side
- Brake System: Front disc brake functional, rear drum brake functional. Brake lever in applied position consistent with emergency braking
- Impact Force Calculated: Approximately 18-22 kN based on deformation pattern
- Paint Evidence: White paint transfer on right front fork matching Activa body color
- Right Side Impact: Deformation depth 25cm on right body panel indicating lateral impact force
- Paint Evidence: Red paint transfer on right side panel matching Pulsar color
- Brake Lever: Right brake lever bent due to impact, position suggests braking attempt
- Tyres: Both tyres in good condition, adequate tread depth (3.5mm front, 4.0mm rear)

- Conclusion: Primary impact was between front-right portion of Pulsar and right-center portion of Activa at an angle of 70-80 degrees. Pulsar was traveling at minimum 50-55 kmph at moment of impact. Both vehicle brake systems were functional prior to accident. Impact force sufficient to cause grievous injuries to rider of Activa.
- Outer Shell: Multiple impact marks on right temporal and parietal region. Deep gouge 4cm long on right side
- Inner Liner: Compressed on right side indicating absorption of impact energy
- Chin Strap: Intact and fastened at time of impact (tear pattern confirms)
- Blood: Blood stains inside helmet, Group B+ confirmed
- Hair: Scalp hair fragments with root, suitable for DNA
- Cracks: Two linear cracks on outer shell right side, 8cm and 5cm, indicating impact absorption
- Effectiveness: Helmet prevented direct skull fracture. Damage pattern consistent with head impact on road surface
- Outer Shell: Minor scratches on left side
- Inner Liner: Normal, no compression
- Chin Strap: Found torn - examination reveals it was already torn/damaged before accident, not due to accident forces
- Conclusion: Helmet not properly secured at time of accident. Scratches consistent with minor fall.
- Blood Group: B+
- Alcohol: Not detected (0 mg/dL)
- Drugs Toxicology: Negative for all screened substances
- Dna Profile: Extracted and preserved for identification
- Blood Group: O+
- Pre Impact Scenario: Pulsar traveling SW to NE on Shankar Road towards junction. Activa traveling from Rajinder Nagar side and executing right turn towards Old Rajinder Nagar.
- Impact Configuration: Pulsar front collides with right center of Activa at intersection. Impact angle 75 degrees.
- Post Impact Dynamics: Activa rider thrown to right side, landing 4.2m from impact point. Pulsar falls to right side, slides 3.1m. Pulsar rider falls to left, minimal travel distance.
- Speed At Impact: Pulsar: 52-58 kmph (calculated from skid mark length 4.2m, friction coefficient 0.7 for dry bitumen, and residual impact velocity from damage analysis). Activa: 8-12 kmph (typical turning speed).
- Avoidability: At speed of 40 kmph (legal limit), Pulsar could have stopped in 15.5m total (thinking + braking distance). From skid mark evidence, Pulsar was at least 8m from impact point when emergency braking initiated. At legal speed, collision was avoidable. At actual speed (55 kmph), stopping distance required was 25m, making collision unavoidable from point where braking started.
- Violation: Speed exceeding legal limit was the primary causative factor. Signal violation/secondary as signal was non-functional but traffic police manual direction was ignored.
- 18:20:03 - White Activa enters frame from bottom (Rajinder Nagar side), speed low, indicator blinking for right turn
- 18:20:05 - Red Pulsar enters frame from left (Shankar Road, Karol Bagh side), speed visibly high
- 18:20:06 - Traffic constable visible at junction, left hand raised signaling STOP for Shankar Road traffic
- 18:20:07 - Pulsar does not stop, continues at same speed into junction
- 18:20:07.5 - Pulsar front collides with right side of Activa
- 18:20:08 - Activa rider airborne, falls near road edge
- 18:20:09 - Pulsar rider falls, gets up at 18:20:12
- 18:20:14 - Constable runs towards Pulsar rider
- 18:20:18 - Constable grabs Pulsar rider by arm
- Time stamp verified: Camera clock accurate within 2 seconds of IST
- 18:19:45 - Red Pulsar passes ATM at high speed, rider wearing red t-shirt, delivery bag visible
- 18:19:52 - Pulsar continues towards junction (towards St. Stephen's Hospital), brake light not visible at any point

- 18:20:30 - Several people seen running towards junction
- Conclusion: CCTV footage corroborates witness statements. Confirms overspeeding, disregard of traffic police signal, and sequence of collision. Time stamps consistent with timeline.

Vehicle Findings

- DL5SCT5678

Evidence Analysis

Documentary Evidence:

- Exhibit No: EX-01, Evidence Id: EVD-0452-001, Description: Bajaj Pulsar 220F Motorcycle DL2SBP1234.
- Exhibit No: EX-02, Evidence Id: EVD-0452-002, Description: Honda Activa 6G Scooter DL5SCT5678.
- Exhibit No: EX-03, Evidence Id: EVD-0452-006, Description: Helmet - Accused (Steelbird, Black).
- Exhibit No: EX-04, Evidence Id: EVD-0452-007, Description: Helmet - Victim (Vega, White).
- Exhibit No: EX-05, Evidence Id: EVD-0452-008, Description: Broken vehicle parts from site.
- Exhibit No: EX-06, Evidence Id: EVD-0452-010, Description: Blood sample - Accused (BLD-0452-A).
- Exhibit No: EX-07, Evidence Id: EVD-0452-011, Description: Blood sample - Victim (BLD-0452-B).
- Exhibit No: EX-08, Evidence Id: EVD-0452-012, Description: Digital photographs (SD Card, 32GB).
- Exhibit No: EX-09, Evidence Id: EVD-0452-013, Description: CCTV DVR Hard Disk (1TB).

Physical/Material Evidence:

- Bajaj Pulsar 220F Motorcycle, Red Color.
- Registration: DL2SBP1234.
- Chassis Number: MD2A18FX5LCK12345.
- Engine Number: DHYCJ51678.
- Condition: Damaged - Front fairing broken, headlight smashed, right handlebar bent.
- Keys: One set with Zomato keychain.
- Owner: Amit Verma.
- Honda Activa 6G Scooter, White Color.
- Registration: DL5SCT5678.
- Chassis Number: ME4JF614AMT67890.
- Engine Number: JF61E3456789.
- Condition: Damaged - Right body panel scraped, right mirror broken, brake lever bent.
- Keys: One set, found in ignition.
- Owner: Rajesh Kumar Sharma.
- Smartphone Samsung Galaxy M32, Black Color.
- Imei: 358123456789012.
- Condition: Working, screen intact.
- Belongs To: Amit Verma (Accused).
- Driving License - Amit Verma.
- License Number: DL/032021/0789456.
- Issued By: RTO Moradabad, UP.

- Valid Till: 28-02-2035.
- Category: MCWG.
- Driving License - Rajesh Kumar Sharma.
- License Number: DL/042018/0456789.
- Issued By: RTO Sheikh Sarai, Delhi.
- Valid Till: 15-07-2032.
- Category: MCWG + LMV.
- Helmet - Accused (Steelbird, Black, Full Face).
- Condition: Scratches on left side, visor missing, chin strap torn.
- Isi Mark: Yes.
- Helmet - Victim (Vega, White, Full Face).
- Condition: Multiple cracks on right side, impact marks, blood stains inside.
- Broken vehicle parts from accident site.
- DETAILS.
- Item 1:
- Red plastic fairing pieces (from Pulsar).
- Item 2:
- White plastic body panel pieces (from Activa).
- Item 3:
- Right side rear view mirror (broken).
- Item 4:
- Headlamp glass fragments.
- Collected From: Accident spot at Shankar Road T-Point.
- Zomato Delivery Bag, Red Color.
- Condition: Empty, torn at one corner.
- Belongs To: Amit Verma.
- Blood sample - Accused (2ml in EDTA vial).
- Vial Id: BLD-0452-A.
- Collected At: RML Hospital, 19:45 hours.
- Blood sample - Victim (2ml in EDTA vial).
- Vial Id: BLD-0452-B.
- Collected At: St. Stephen's Hospital, 19:30 hours.
- Photographs - Digital, 25 Frames.
- Details: Accident spot, vehicle positions, road marks, injuries (with doctor consent).
- Camera: Canon EOS 1300D, PS Rajinder Nagar.
- Photographer: HC Ramesh Kumar, Photography Section.
- CCTV Footage DVR Hard Disk.
- Source: St. Stephen's Hospital Gate 2, Camera ID: CAM-SSH-G2-03.
- Capacity: 1TB.
- Time Stamp Extracted: 18:10 to 18:35, 15-10-2024.
- CCTV Footage Pen Drive.

- Source: Canara Bank ATM, Shankar Road.
- Camera Id: CAM-CB-ATM-01.
- Time Stamp Extracted: 18:15 to 18:25, 15-10-2024.

Medical Evidence:

- Alleged History: Road Traffic Accident at Shankar Road T-Point at approximately 18:20 hours.
- Patient riding scooter, hit by speeding motorcycle from side. Thrown off vehicle and landed on road.
- Helmet worn at time of accident.
- Brought Dead: False.

- Outer Shell: Minor scratches on left side
- Inner Liner: Normal, no compression
- Chin Strap: Found torn - examination reveals it was already torn/damaged before accident, not due to accident forces
- Conclusion: Helmet not properly secured at time of accident. Scratches consistent with minor fall.
- Blood Group: B+
- Alcohol: Not detected (0 mg/dL)
- Drugs Toxicology: Negative for all screened substances
- Dna Profile: Extracted and preserved for identification
- Blood Group: O+
- Pre Impact Scenario: Pulsar traveling SW to NE on Shankar Road towards junction. Activa traveling from Rajinder Nagar side and executing right turn towards Old Rajinder Nagar.
- Impact Configuration: Pulsar front collides with right center of Activa at intersection. Impact angle 75 degrees.

- Post Impact Dynamics: Activa rider thrown to right side, landing 4.2m from impact point. Pulsar falls to right side, slides 3.1m. Pulsar rider falls to left, minimal travel distance.
- Speed At Impact: Pulsar: 52-58 kmph (calculated from skid mark length 4.2m, friction coefficient 0.7 for dry bitumen, and residual impact velocity from damage analysis). Activa: 8-12 kmph (typical turning speed).
- Avoidability: At speed of 40 kmph (legal limit), Pulsar could have stopped in 15.5m total (thinking + braking distance). From skid mark evidence, Pulsar was at least 8m from impact point when emergency braking initiated. At legal speed, collision was avoidable. At actual speed (55 kmph), stopping distance required was 25m, making collision unavoidable from point where braking started.
- Violation: Speed exceeding legal limit was the primary causative factor. Signal violation/secondary as signal was non-functional but traffic police manual direction was ignored.
- 18:20:03 - White Activa enters frame from bottom (Rajinder Nagar side), speed low, indicator blinking for right turn
- 18:20:05 - Red Pulsar enters frame from left (Shankar Road, Karol Bagh side), speed visibly high
- 18:20:06 - Traffic constable visible at junction, left hand raised signaling STOP for Shankar Road traffic
- 18:20:07 - Pulsar does not stop, continues at same speed into junction
- 18:20:07.5 - Pulsar front collides with right side of Activa
- 18:20:08 - Activa rider airborne, falls near road edge
- 18:20:09 - Pulsar rider falls, gets up at 18:20:12
- 18:20:14 - Constable runs towards Pulsar rider
- 18:20:18 - Constable grabs Pulsar rider by arm
- Time stamp verified: Camera clock accurate within 2 seconds of IST
- 18:19:45 - Red Pulsar passes ATM at high speed, rider wearing red t-shirt, delivery bag visible
- 18:19:52 - Pulsar continues towards junction (towards St. Stephen's Hospital), brake light not visible at any point
- 18:20:30 - Several people seen running towards junction
- Conclusion: CCTV footage corroborates witness statements. Confirms overspeeding, disregard of traffic police signal, and sequence of collision. Time stamps consistent with timeline.

- On 15-10-2024 at about 18:20 hours, accused Amit Verma while riding motorcycle Bajaj Pulsar DL2SBP1234 on Shankar Road in a rash and negligent manner endangering human life, coming from Karol Bagh side towards Rajinder Nagar, at T-point near St. Stephen's Hospital Gate No. 2, jumped the red light and dashed against Honda Activa DL5SCT5678 being ridden by victim Rajesh Kumar Sharma who was coming from Rajinder Nagar side and taking a legal turn towards Old Rajinder Nagar. Due to high-speed impact, victim sustained grievous injuries and was admitted to St. Stephen's Hospital in critical condition. The accused failed to provide medical aid to victim and attempted to flee but was apprehended by Traffic Constable Mohammed Asif at the spot. Medical examination of accused was conducted and case has been registered.

- Received DD No. 24-A dated 15-10-2024 regarding accident at Shankar Road T-Point at 18:20 hours. Proceeded to spot. PCR already present. Victim shifted to St. Stephen's Hospital. Accused detained at spot by Traffic Constable Mohammed Asif. Conducted preliminary inquiry at spot. Collected initial evidence. Registered FIR No. 452/2024 under sections 281/125 BNS and 184/134 MV Act on complaint of Smt. Sunita Sharma, wife of victim. Arrested accused Amit Verma at 19:15 hours from spot. Conducted personal search, prepared arrest memo. Accused sent for medical examination to RML Hospital through Constable Rajesh. Victim's MLC obtained from St. Stephen's Hospital - grievous injuries noted. IO to hospital, recorded victim's medical status. Returned to spot for detailed panchnama.
Exhibits Collected: Vehicle DL2SBP1234, DL5SCT5678, accused's mobile, both DLs, helmets
Statements Recorded: Complaint of Sunita Sharma, Statement of HC Mohammed Asif (eyewitness), Statement of Prakash Joshi (eyewitness)

- Conducted detailed spot panchnama at Shankar Road T-Point from 21:00 to 22:15 hours in presence of panch witnesses Mohammed Asif and Prakash Joshi. Took measurements of road width (12.5m Shankar Road, 10m Rajinder Nagar Road), vehicle positions, skid marks (4.2m from Pulsar), blood stains, debris field. Identified impact point 6.5m from Shankar Road stop line. Photographed scene - 25 digital frames by HC Ramesh Kumar. Collected broken vehicle parts, helmets, delivery bag. Arranged for both vehicles to be towed to PS Malkhana yard. Noted non-functional traffic signal, 4 of 6 street lights working. Panchnama completed at 22:15 hours.
Exhibits Collected: Broken parts, helmets, delivery bag, blood samples (through hospital)
Photographs: 25 digital frames

- Accused Amit Verma produced before me in lock-up. Informed him of his rights under Article 20(3) of Constitution and right to legal counsel. Accused opted to give voluntary statement without lawyer. Recorded detailed statement of accused in presence of ASI Ramphal Singh as witness. Accused admitted overspeeding and stated he was in hurry to deliver Zomato order. Showed remorse. Statement recorded verbatim. Accused remanded to judicial custody. Duty Magistrate informed telephonically. Accused to be produced before Ld. MM tomorrow.
Statements Recorded: Accused statement of Amit Verma

- Morning: Directed ASI Rajender Prasad (MTO) to conduct detailed mechanical inspection of both vehicles. Inspection conducted 10:00-13:30 in Malkhana yard. Report received - both vehicles roadworthy before accident, damage consistent with collision dynamics, Pulsar speedometer stuck at 55 kmph. Mid-day: Visited St. Stephen's Hospital security office. Collected CCTV DVR hard disk from Gate 2 camera (CAM-SSH-G2-03) covering junction. Obtained footage from 18:00-18:45 hours. Chain of custody documented. Also visited Canara Bank ATM, Shankar Road. Bank Manager Mr. S. Venkatesh provided CCTV copy on pen drive showing approach road. Obtained PCR Van Z-45 dashcam SD card from ASI Dharampal. All digital evidence submitted to HC Ramesh Kumar, Technical Cell for analysis.
Exhibits Collected: CCTV DVR (EVD-0452-013), CCTV Pen Drive (EVD-0452-014), PCR Dashcam SD (EVD-0452-015)
Reports Received: Vehicle Inspection Report from ASI Rajender Prasad

- Visited St. Stephen's Hospital SICU. Met treating doctor Dr. Anjali Mehta. Victim Rajesh Sharma still in ICU, post-surgery for femur fracture. Also underwent craniotomy for SDH evacuation on 16-10-2024 morning. Condition critical but stable. Doctor confirmed injuries are grievous in nature and dangerous to life. Obtained detailed MLC and medical records. Collected victim's blood sample for FSL (alcohol/drug screening - negative as per hospital). Met complainant

Sunita Sharma at hospital, briefed her on investigation progress. Advised her to preserve all medical bills and records for court.
Documents Obtained: MLC Report, Admission records, Surgery notes

- HC Ramesh Kumar completed CCTV footage analysis. Report confirms: Pulsar overspeeding (60 kmph on approach, 52-58 at impact), ignored traffic constable's stop signal, collision at 18:20:07.800 hours. Activa at normal turning speed (10 kmph), legal turn. Footage from 3 cameras synchronized and consistent. Prepared detailed CCTV analysis report with frame-by-frame speed calculation. All exhibits packed and sealed for FSL examination: vehicles, helmets, broken parts, blood samples, photographs SD card, CCTV HDD. Dispatched to FSL Rohini through Constable Mohan Singh with Road Certificate No. 234/2024 dated 17-10-2024. FSL requisition letter prepared detailing examination required.
Reports Received: CCTV Analysis Report
Exhibits Sent Fsl: EVD-0452-001, 002, 006, 007, 008, 010, 011, 012, 013

- Produced accused Amit Verma before Ld. Metropolitan Magistrate, Tis Hazari Courts. Filed application for 3-day police custody remand for further investigation - need to recover Zomato delivery records, verify accused's mobile data, and conduct test identification parade. Court granted 2 days PC remand. Accused remanded to police custody till 20-10-2024. Also filed application for preservation of CCTV footage from other cameras on route. Court directed concerned authorities to preserve footage for 30 days.
Court Orders: PC Remand for 2 days, CCTV preservation order

- During PC remand, extracted data from accused's smartphone (Samsung M32) with technical assistance from IT Cell. Recovered: Zomato Partner App data showing order accepted at 18:10, pickup from Haldiram's Karol Bagh at 18:15, delivery address in Old Rajinder Nagar with deadline 18:35. GPS location history shows speeds of 55-65 kmph on Shankar Road segment. Also recovered Google Maps timeline confirming route and speeds. Obtained Zomato records through official communication to Zomato's nodal officer - confirmation of accused's delivery partner ID, order details, and delivery attempt at 18:35 which was marked 'delayed'. Mobile call log shows no calls at time of accident - accused not distracted by phone call, but was possibly looking at navigation. Phone mounted on handlebar confirmed.
Digital Evidence: Zomato Partner App data, Google Maps Timeline, GPS speed logs

- Test Identification Parade not conducted as accused identified by witnesses at spot itself. Section 164 CrPC statement of witnesses not deemed necessary. Accused produced before Ld. MM on expiry of PC remand. Accused not applying for bail at this stage. Court sent accused to judicial custody. Investigation continued. Visited traffic police circle office, obtained record of complaint filed by Constable Asif about non-functional signal on 13-10-2024. Also obtained duty roster confirming Asif's deployment at Shankar Road T-Point on 15-10-2024 from 16:00-20:00 hours.
Documents Obtained: Traffic signal complaint record, Duty roster

- Visited St. Stephen's Hospital. Victim shifted from ICU to general ward on 24-10-2024. Conscious and oriented. Recorded supplementary statement of victim under Section 161 CrPC. Victim states he was returning home from office, wearing helmet, driving at 30-35 kmph, took right turn at T-point when suddenly a speeding motorcycle hit him. He does not remember anything after that. Victim's statement corroborates evidence. Doctor indicates another 2 weeks hospitalization needed. Physiotherapy to follow. Permanent disability not ruled out for right leg.
Statements Recorded: Supplementary statement of victim Rajesh Sharma

- Background verification of accused conducted through local inquiry at Old Rajinder Nagar address and native village in Moradabad, UP through UP Police. Accused has no previous criminal record. Living in Delhi for 5 years. Working with Zomato for 2 years. Two-wheeler driving experience 7 years. No previous traffic challans in Delhi (verified from e-challan portal). However, one challan for overspeeding in Moradabad in 2022 (paid). Landlord confirms accused is of good character. No history of rashness or alcoholism. Accused's father is a marginal farmer. Family background verified.
Documents Obtained: Background verification report, E-challan portal screenshot

- Received preliminary FSL report from Dr. Priya Nambiar. Key findings: Speed at impact 52-58 kmph for Pulsar, victim's helmet prevented skull fracture but sustained significant impact, blood alcohol negative for both, vehicle damage consistent with collision dynamics, paint transfer confirmed. Accident reconstruction confirms primary fault of Pulsar rider. Formal report awaited. Preliminary findings included in case file for reference.
Reports Received: Preliminary FSL findings (verbal and email)

- Received final FSL Report No. FSL/DL/2024/PHY/8934 dated 18-11-2024. Complete forensic examination confirms all investigation findings. Report includes vehicle examination, helmet analysis, blood analysis, accident reconstruction, and CCTV correlation. All exhibits returned from FSL to Malkhana. FSL report made part of case file. Key conclusions: (1) Accident caused by overspeeding of Pulsar (52-58 kmph vs 40 kmph limit), (2) Victim had no contributory negligence, (3)

Helmet saved victim from fatal head injury, (4) Both vehicles mechanically sound before accident.
Reports Received: FSL Report No. FSL/DL/2024/PHY/8934

- Victim Rajesh Sharma discharged from hospital on 20-11-2024 after 36 days of treatment. Obtained final discharge summary and fitness certificate. Victim advised 3 months physiotherapy, follow-up in Ortho and Neuro OPD. Permanent disability assessment after 6 months. Recorded final statement of victim regarding expenses incurred (approximately ■4.2 lakhs medical expenses), loss of salary (3 months leave without pay), and ongoing treatment needs. Victim expresses desire for compensation and strict punishment to accused. Documents collected for Victim Compensation Scheme application.

Statements Recorded: Final victim statement
Documents Obtained: Discharge summary, Medical bills, Salary slips, Physiotherapy prescription

- Investigation complete. All evidence collected, statements recorded, forensic reports received. Prima facie case well established against accused Amit Verma for offences under Section 281 BNS (Rash driving), Section 125 BNS (Act endangering life), Section 184 MV Act (Dangerous driving), and Section 134 MV Act (Failure to provide medical aid - accused did not actively assist victim though he was also injured, however the attempt to leave initially constitutes violation). Evidence list finalized - 15 exhibits. Case diary complete with 15 entries. All documents compiled and indexed in Annexures. Investigation reveals: Accused was overspeeding (52-58 kmph in 40 kmph zone), ignored traffic constable's manual stop signal, was in hurry to meet food delivery deadline, and due to high speed could not stop in time to avoid collision with victim's scooter who was making a legal turn at appropriate speed. Victim suffered grievous injuries requiring 36 days hospitalization and may have permanent disability. No contributory negligence by victim. Accused has no criminal history but his actions show disregard for traffic rules and public safety. Prepared final investigation report recommending filing of chargesheet before Hon'ble Court under above sections. Report submitted to ACP, Patel Nagar Sub-Division for supervisory review and approval.

Reports Prepared: Investigation Completion Report, Draft Chargesheet
Submitted To: ACP Patel Nagar for approval
Case Diary Certification: Certified that this case diary contains a true and complete account of investigation conducted by me in case FIR No. 452/2024 PS Rajinder Nagar. All dates, times, and actions are recorded contemporaneously.
Io Signature: Inspector Suresh Chandra
Supervisory Remarks: Investigation thorough and complete. Chargesheet approved for filing. - ACP Patel Nagar, 28-11-2024

Bazaar within 20 minutes. I was going on my Pulsar motorcycle DL2SBP1234. The traffic signal at Shankar Road T-point was not working and there was a traffic policeman managing it. I was in a hurry to deliver the order because if I am late, my incentive gets cut. I admit that my speed was somewhat more but I thought I could cross the junction before the scooter turned. When I reached

near the hospital T-point, I saw a white Activa scooter was turning from the other side. I tried to apply brakes but the distance was less and my bike collided with the scooter. I also fell down. When I got up, I saw the scooter rider was lying on the road and was injured. I got scared. The traffic policeman came and caught me. I was not trying to run away, I was just picking up my bike which had fallen. I admit my mistake. I should not have ridden at that speed. I had delivered 18 orders since morning and was tired. Please forgive me, I am a poor person. I have old parents in village. I will not repeat such mistake in future. I will bear all medical expenses of the injured person. Whatever happened was not intentional, it was a mistake because of hurry. I am ready to cooperate with the investigation.

Text:
Received DD No. 24-A dated 15-10-2024 regarding accident at Shankar Road T-Point at 18:20 hours. Proceeded to spot. PCR already present. Victim shifted to St. Stephen's Hospital. Accused detained at spot by Traffic Constable Mohammed Asif. Conducted preliminary inquiry at spot. Collected initial evidence. Registered FIR No. 452/2024 under sections 281/125 BNS and 184/134 MV Act on complaint of Smt. Sunita Sharma, wife of victim. Arrested accused Amit Verma at 19:15 hours from spot. Conducted personal search, prepared arrest memo. Accused sent for medical examination to RML Hospital through Constable Rajesh. Victim's MLC obtained from St. Stephen's Hospital - grievous injuries noted. IO to hospital, recorded victim's medical status. Returned to spot for detailed panchnama.
Exhibits Collected: Vehicle DL2SBP1234, DL5SCT5678, accused's mobile, both DLs, helmets
Statements Recorded: Complaint of Sunita Sharma, Statement of HC Mohammed Asif (eyewitness), Statement of Prakash Joshi (eyewitness)
- Entry No.: CD-02
Entry Date and time: 15 October 2024, 21:00
Conducted detailed spot panchnama at Shankar Road T-Point from 21:00 to 22:15 hours in presence of panch witnesses Mohammed Asif and Prakash Joshi. Took measurements of road width (12.5m Shankar Road, 10m Rajinder Nagar Road), vehicle positions, skid marks (4.2m from Pulsar), blood stains, debris field. Identified impact point 6.5m from Shankar Road stop line. Photographed scene - 25 digital frames by HC Ramesh Kumar. Collected broken vehicle parts, helmets, delivery bag. Arranged for both vehicles to be towed to PS Malkhana yard. Noted non-functional traffic signal, 4 of 6 street lights working. Panchnama completed at 22:15 hours.
Exhibits Collected: Broken parts, helmets, delivery bag, blood samples (through hospital)
Photographs: 25 digital frames
- Entry No.: CD-03
Entry Date and time: 15 October 2024, 22:30
Accused Amit Verma produced before me in lock-up. Informed him of his rights under Article 20(3) of Constitution and right to legal counsel. Accused opted to give voluntary statement without lawyer. Recorded detailed statement of accused in presence of ASI Ramphal Singh as witness. Accused admitted overspeeding and stated he was in hurry to deliver Zomato order. Showed remorse. Statement recorded verbatim. Accused remanded to judicial custody. Duty Magistrate informed telephonically. Accused to be produced before Ld. MM tomorrow.
Statements Recorded: Accused statement of Amit Verma
- Entry No.: CD-04
Entry Date and time: 16 October 2024, 09:00
Morning: Directed ASI Rajender Prasad (MTO) to conduct detailed mechanical inspection of both vehicles. Inspection conducted 10:00-13:30 in Malkhana yard. Report received - both vehicles roadworthy before accident, damage consistent with collision dynamics, Pulsar speedometer stuck at 55 kmph. Mid-day: Visited St. Stephen's Hospital security office. Collected CCTV DVR hard disk from Gate 2 camera (CAM-SSH-G2-03) covering junction. Obtained footage from 18:00-18:45 hours. Chain of custody documented. Also visited Canara Bank ATM, Shankar Road. Bank Manager Mr. S. Venkatesh provided CCTV copy on pen drive showing approach road. Obtained PCR Van Z-45 dashcam SD card from ASI Dharampal. All digital evidence submitted to HC Ramesh Kumar, Technical Cell for analysis.

Exhibits Collected: CCTV DVR (EVD-0452-013), CCTV Pen Drive (EVD-0452-014), PCR Dashcam SD (EVD-0452-015)
Reports Received: Vehicle Inspection Report from ASI Rajender Prasad
- Entry No.: CD-05
Entry Date and time: 16 October 2024, 15:00
Visited St. Stephen's Hospital SICU. Met treating doctor Dr. Anjali Mehta. Victim Rajesh Sharma still in ICU, post-surgery for femur fracture. Also underwent craniotomy for SDH evacuation on 16-10-2024 morning. Condition critical but stable. Doctor confirmed injuries are grievous in nature and dangerous to life. Obtained detailed MLC and medical records. Collected victim's blood sample for FSL (alcohol/drug screening - negative as per hospital). Met complainant Sunita Sharma at hospital, briefed her on investigation progress. Advised her to preserve all medical bills and records for court.
Documents Obtained: MLC Report, Admission records, Surgery notes
- Entry No.: CD-06
Entry Date and time: 17 October 2024, 10:00
HC Ramesh Kumar completed CCTV footage analysis. Report confirms: Pulsar overspeeding (60 kmph on approach, 52-58 at impact), ignored traffic constable's stop signal, collision at 18:20:07.800 hours. Activa at normal turning speed (10 kmph), legal turn. Footage from 3 cameras synchronized and consistent. Prepared detailed CCTV analysis report with frame-by-frame speed calculation. All exhibits packed and sealed for FSL examination: vehicles, helmets, broken parts, blood samples, photographs SD card, CCTV HDD. Dispatched to FSL Rohini through Constable Mohan Singh with Road Certificate No. 234/2024 dated 17-10-2024. FSL requisition letter prepared detailing examination required.
Reports Received: CCTV Analysis Report
Exhibits Sent Fsl: EVD-0452-001, 002, 006, 007, 008, 010, 011, 012, 013
- Entry No.: CD-07
Entry Date and time: 18 October 2024, 10:00
Produced accused Amit Verma before Ld. Metropolitan Magistrate, Tis Hazari Courts. Filed application for 3-day police custody remand for further investigation - need to recover Zomato delivery records, verify accused's mobile data, and conduct test identification parade. Court granted 2 days PC remand. Accused remanded to police custody till 20-10-2024. Also filed application for preservation of CCTV footage from other cameras on route. Court directed concerned authorities to preserve footage for 30 days.
Court Orders: PC Remand for 2 days, CCTV preservation order
- Entry No.: CD-08
Entry Date and time: 19 October 2024, 10:00
During PC remand, extracted data from accused's smartphone (Samsung M32) with technical assistance from IT Cell. Recovered: Zomato Partner App data showing order accepted at 18:10, pickup from Haldiram's Karol Bagh at 18:15, delivery address in Old Rajinder Nagar with deadline 18:35. GPS location history shows speeds of 55-65 kmph on Shankar Road segment. Also recovered Google Maps timeline confirming route and speeds. Obtained Zomato records through official communication to Zomato's nodal officer - confirmation of accused's delivery partner ID, order details, and delivery attempt at 18:35 which was marked 'delayed'. Mobile call log shows no calls at time of accident - accused not distracted by phone call, but was possibly looking at navigation. Phone mounted on handlebar confirmed.
Digital Evidence: Zomato Partner App data, Google Maps Timeline, GPS speed logs
- Entry No.: CD-09
Entry Date and time: 20 October 2024, 10:00
Test Identification Parade not conducted as accused identified by witnesses at spot itself. Section 164 CrPC statement of witnesses not deemed necessary. Accused produced before Ld. MM on expiry of PC remand. Accused not applying for bail at this stage. Court sent accused to judicial custody. Investigation continued. Visited traffic police circle office, obtained record of complaint filed by Constable Asif about non-functional signal on 13-10-2024. Also obtained duty roster confirming Asif's deployment at Shankar Road T-Point on 15-10-2024 from 16:00-20:00 hours.
Documents Obtained: Traffic signal complaint record, Duty roster
- Entry No.: CD-10
Entry Date and time: 25 October 2024, 11:00
Visited St. Stephen's Hospital. Victim shifted from ICU to general ward on 24-10-2024. Conscious and oriented. Recorded supplementary statement of victim under Section 161 CrPC. Victim states he was returning home from office, wearing helmet, driving at 30-35 kmph, took right turn at T-point when suddenly a speeding motorcycle hit him. He does not remember anything after that. Victim's statement corroborates evidence. Doctor indicates another 2 weeks hospitalization needed. Physiotherapy to follow. Permanent disability not ruled out for right leg.
Statements Recorded: Supplementary statement of victim Rajesh Sharma

- Entry No.: CD-11
Entry Date and time: 05 November 2024, 14:00
Background verification of accused conducted through local inquiry at Old Rajinder Nagar address and native village in Moradabad, UP through UP Police. Accused has no previous criminal record. Living in Delhi for 5 years. Working with Zomato for 2 years. Two-wheeler driving experience 7 years. No previous traffic challans in Delhi (verified from e-challan portal). However, one challan for overspeeding in Moradabad in 2022 (paid). Landlord confirms accused is of good character. No history of rashness or alcoholism. Accused's father is a marginal farmer. Family background verified.
Documents Obtained: Background verification report, E-challan portal screenshot
- Entry No.: CD-12
Entry Date and time: 15 November 2024, 10:00
Received preliminary FSL report from Dr. Priya Nambiar. Key findings: Speed at impact 52-58 kmph for Pulsar, victim's helmet prevented skull fracture but sustained significant impact, blood alcohol negative for both, vehicle damage consistent with collision dynamics, paint transfer confirmed. Accident reconstruction confirms primary fault of Pulsar rider. Formal report awaited. Preliminary findings included in case file for reference.
Reports Received: Preliminary FSL findings (verbal and email)
- Entry No.: CD-13
Entry Date and time: 18 November 2024, 12:00
Received final FSL Report No. FSL/DL/2024/PHY/8934 dated 18-11-2024. Complete forensic examination confirms all investigation findings. Report includes vehicle examination, helmet analysis, blood analysis, accident reconstruction, and CCTV correlation. All exhibits returned from FSL to Malkhana. FSL report made part of case file. Key conclusions: (1) Accident caused by overspeeding of Pulsar (52-58 kmph vs 40 kmph limit), (2) Victim had no contributory negligence, (3) Helmet saved victim from fatal head injury, (4) Both vehicles mechanically sound before accident.
Reports Received: FSL Report No. FSL/DL/2024/PHY/8934
- Entry No.: CD-14
Entry Date and time: 22 November 2024, 10:00
Victim Rajesh Sharma discharged from hospital on 20-11-2024 after 36 days of treatment. Obtained final discharge summary and fitness certificate. Victim advised 3 months physiotherapy, follow-up in Ortho and Neuro OPD. Permanent disability assessment after 6 months. Recorded final statement of victim regarding expenses incurred (approximately ■4.2 lakhs medical expenses), loss of salary (3 months leave without pay), and ongoing treatment needs. Victim expresses desire for compensation and strict punishment to accused. Documents collected for Victim Compensation Scheme application.
Statements Recorded: Final victim statement
Documents Obtained: Discharge summary, Medical bills, Salary slips, Physiotherapy prescription
- Entry No.: CD-15
Entry Date and time: 28 November 2024, 10:00
Investigation complete. All evidence collected, statements recorded, forensic reports received. Prima facie case well established against accused Amit Verma for offences under Section 281 BNS (Rash driving), Section 125 BNS (Act endangering life), Section 184 MV Act (Dangerous driving), and Section 134 MV Act (Failure to provide medical aid - accused did not actively assist victim though he was also injured, however the attempt to leave initially constitutes violation). Evidence list finalized - 15 exhibits. Case diary complete with 15 entries. All documents compiled and indexed in Annexures. Investigation reveals: Accused was overspeeding (52-58 kmph in 40 kmph zone), ignored traffic constable's manual stop signal, was in hurry to meet food delivery deadline, and due to high speed could not stop in time to avoid collision with victim's scooter who was making a legal turn at appropriate speed. Victim suffered grievous injuries requiring 36 days hospitalization and may have permanent disability. No contributory negligence by victim. Accused has no criminal history but his actions show disregard for traffic rules and public safety. Prepared final investigation report recommending filing of chargesheet before Hon'ble Court under above sections. Report submitted to ACP, Patel Nagar Sub-Division for supervisory review and approval.
Reports Prepared: Investigation Completion Report, Draft Chargesheet
Submitted To: ACP Patel Nagar for approval
Case Diary Certification: Certified that this case diary contains a true and complete account of investigation conducted by me in case FIR No. 452/2024 PS Rajinder Nagar. All dates, times, and actions are recorded contemporaneously.
Io Signature: Inspector Suresh Chandra
Supervisory Remarks: Investigation thorough and complete. Chargesheet approved for filing. - ACP Patel Nagar, 28-11-2024

CCTV 003 PCR DASHCAM
Item 1:
Timestamp: 18:24:05
Camera: PCR-DASH-Z45
Observation: PCR van receives dispatch: 'Accident at Shankar Road T-point near St. Stephen's Hospital. Two-wheeler collision. Injury reported. Proceed code 2.'
Item 2:

Timestamp: 18:31:05
Camera: PCR-DASH-Z45
Observation: PCR arrives at scene. Crowd visible at junction. Red and white two-wheelers visible in fallen positions.
FRAME BY FRAME SPEED ANALYSIS
Method: Speed calculated using known distance reference points (road markings measured during spot panchnama) and frame counting (25 fps). Formula: Speed (kmph) = (Distance in meters / Number of frames) x 90.
CALCULATIONS
Item 1:
Vehicle: Bajaj Pulsar DL2SBP1234
Segment: 50m to 20m before stop line (CCTV-002)
Distance: 30
DELHI POLICE
Case: FIR/2024/DL/PSRKP/0452
OFFICIAL DOCUMENT
Page 7
This document is a true copy of the original record
Generated: 13-08-2026 18:18 Confidential - For Official Use Only
Frames: 45
Time: 1.8 seconds
Speed: 60.0 kmph
Item 2:
Vehicle: Bajaj Pulsar DL2SBP1234
Segment: 20m before stop line to impact (CCTV-001)
Distance: 24
Frames: 55
Time: 2.2 seconds
Speed: 52.4 kmph (slight deceleration - possible late braking)
Item 3:
Vehicle: Honda Activa DL5SCT5678
Segment: Enters junction to impact point
Distance: 8
Frames: 72
Time: 2.88 seconds
Speed: 10.0 kmph (normal turning speed)
Conclusion: CCTV footage analysis conclusively establishes that the accused was riding at excessive speed (52-60 kmph in a 40 kmph zone), ignored the traffic constable's manual stop signal, and failed to brake in time to avoid collision. The victim was riding at appropriate speed and was executing a legal turn. Footage corroborates eyewitness statements in all material particulars. Time stamps from all three cameras are synchronized and consistent. No tampering or editing detected in any footage.
Certification: I hereby certify that the above CCTV analysis is true and correct based on the footage examined. The original footage is preserved in evidence.

Description

Complaint:
Document ID: c3792e74-abe2-4f0a-bb86-2cfce930d56a
Complaint date: 15 October 2024

Complainant name: Sunita Sharma
Complainant address: B-143, R.P. Bagh, Pusa Road, New Delhi - 110005
Person complained against names: - Amit Verma
Victim names: - Rajesh Kumar Sharma
Complaint text: Respected Sir, I Sunita Sharma, wife of Rajesh Kumar Sharma, resident of B-143, R.P. Bagh, Pusa Road, New Delhi, do hereby state that today on 15th October 2024, my husband Rajesh Kumar Sharma had gone to his office at DTC Inderlok Depot. He usually returns home by 6:30 PM. At about 6:20 PM, I received a phone call from his mobile number, but the caller was some other person who informed me that my husband had met with an accident near St. Stephen's Hospital. I immediately rushed to the hospital and found my husband in emergency ward with serious injuries. As per what I was told by the traffic police constable present there, a person named Amit Verma who was riding a red colored Pulsar motorcycle at very high speed, jumped the traffic signal and hit my husband's Activa scooter. My husband was coming from the correct direction and was taking a turn when this accident happened. The rider of the Pulsar was caught at the spot. I request you to take strict legal action against the accused person as due to his rash and negligent driving my husband has suffered grievous injuries including head injury, leg fracture, and internal injuries and is undergoing treatment in ICU. The motorcycle rider was working for food delivery and was in hurry which led to this accident. I am filing this complaint with my free will and no one has forced me to do so. The facts stated are true to my knowledge and belief.

EVIDENCE INVENTORY
Case Reference: FIR/2024/DL/PSRKP/0452
Total Evidence Items: 15
Evidence Custodian: MHC(M) - PS Rajinder Nagar
List Prepared By: Inspector Suresh Chandra, IO
Date: 2024-10-16
ITEMS
Item 1:
Evidence Id: EVD-0452-001
Type: Physical - Vehicle
Description: Bajaj Pulsar 220F Motorcycle, Red, Registration DL2SBP1234
Quantity: 1 unit
Collected From: Accident spot, Shankar Road T-Point
Collected By: Inspector Suresh Chandra
Date Time Collection: 2024-10-15, 21:30
Packaging: Parked in Police Station Malkhana yard, covered with tarpaulin
Seal Number: SC-01
Current Location: Malkhana Yard, PS Rajinder Nagar
CHAIN OF CUSTODY
Item 1:

Date: 2024-10-15
Action: Seized from spot
By: IO
Item 2:
Date: 2024-10-16
Action: Vehicle inspection
DELHI POLICE

Description

FIR:
Document ID: ebe1cab4-a6fe-4faa-ab96-e038ff5f1300
Fir number: FIR/2024/DL/PSRKP/0452
Registration date: 15 October 2024
Police station: Rajinder Nagar Police Station
Complainant name: Sunita Sharma
Accused names: - Amit Verma
Victim names: - Rajesh Kumar Sharma
Vehicle registrations: - DL2SBP1234
- DL5SCT5678
Occurrence datetime: 15 October 2024, 18:20
Occurrence location: Shankar Road T-Point, Near St. Stephen's Hospital Gate No. 2, Rajinder Nagar, New Delhi
Jurisdiction: Central Delhi
Court: Ld. Metropolitan Magistrate, Tis Hazari Courts
Reported sections: - Section 281
- Section 125
- Section 184
- Section 134
Narrative text: On 15-10-2024 at about 18:20 hours, accused Amit Verma while riding motorcycle Bajaj Pulsar DL2SBP1234 on Shankar Road in a rash and negligent manner endangering human life, coming from Karol Bagh side towards Rajinder Nagar, at T-point near St. Stephen's Hospital Gate No. 2, jumped the red light and dashed against Honda Activa DL5SCT5678 being ridden by victim Rajesh Kumar Sharma who was coming from Rajinder Nagar side and taking a legal turn towards Old Rajinder Nagar. Due to high-speed impact, victim sustained grievous injuries and was admitted to St. Stephen's Hospital in critical condition. The accused failed to provide medical aid to victim and attempted to flee but was apprehended by Traffic Constable Mohammed Asif at the spot. Medical examination of accused was conducted and case has been registered.

Description

FSL report:
Document ID: 253e838a-7aec-4cbd-847f-1904ac0d0b21
Report number: FSL/DL/2024/PHY/8934
Report date: 18 November 2024
Laboratory name: Forensic Science Laboratory, Rohini, New Delhi - 110085
Examined items: - Exhibit No: EX-01, Evidence Id: EVD-0452-001, Description: Bajaj Pulsar 220F Motorcycle DL2SBP1234
- Exhibit No: EX-02, Evidence Id: EVD-0452-002, Description: Honda Activa 6G Scooter DL5SCT5678
- Exhibit No: EX-03, Evidence Id: EVD-0452-006, Description: Helmet - Accused (Steelbird, Black)

- Exhibit No: EX-04, Evidence Id: EVD-0452-007, Description: Helmet - Victim (Vega, White)
- Exhibit No: EX-05, Evidence Id: EVD-0452-008, Description: Broken vehicle parts from site
- Exhibit No: EX-06, Evidence Id: EVD-0452-010, Description: Blood sample - Accused (BLD-0452-A)
- Exhibit No: EX-07, Evidence Id: EVD-0452-011, Description: Blood sample - Victim (BLD-0452-B)
- Exhibit No: EX-08, Evidence Id: EVD-0452-012, Description: Digital photographs (SD Card, 32GB)
- Exhibit No: EX-09, Evidence Id: EVD-0452-013, Description: CCTV DVR Hard Disk (1TB)

Findings: - Speedometer: Needle stuck at 55 kmph (indicates approximate speed at impact)
- Headlight: Smashed, filament examination shows 'hot shock' deformation confirming light was ON at time of impact
- Front Wheel: Rim bent, tyre burst on right side
- Brake System: Front disc brake functional, rear drum brake functional. Brake lever in applied position consistent with emergency braking
- Impact Force Calculated: Approximately 18-22 kN based on deformation pattern
- Paint Evidence: White paint transfer on right front fork matching Activa body color
- Right Side Impact: Deformation depth 25cm on right body panel indicating lateral impact force
- Paint Evidence: Red paint transfer on right side panel matching Pulsar color
- Brake Lever: Right brake lever bent due to impact, position suggests braking attempt
- Tyres: Both tyres in good condition, adequate tread depth (3.5mm front, 4.0mm rear)
- Conclusion: Primary impact was between front-right portion of Pulsar and right-center portion of Activa at an angle of 70-80 degrees. Pulsar was traveling at minimum 50-55 kmph at moment of impact. Both vehicle brake systems were functional prior to accident. Impact force sufficient to cause grievous injuries to rider of Activa.
- Outer Shell: Multiple impact marks on right temporal and parietal region. Deep gouge 4cm long on right side
- Inner Liner: Compressed on right side indicating absorption of impact energy
- Chin Strap: Intact and fastened at time of impact (tear pattern confirms)
- Blood: Blood stains inside helmet, Group B+ confirmed
- Hair: Scalp hair fragments with root, suitable for DNA
- Cracks: Two linear cracks on outer shell right side, 8cm and 5cm, indicating impact absorption
- Effectiveness: Helmet prevented direct skull fracture. Damage pattern consistent with head impact on road surface
- Outer Shell: Minor scratches on left side
- Inner Liner: Normal, no compression
- Chin Strap: Found torn - examination reveals it was already torn/damaged before accident, not due to accident forces
- Conclusion: Helmet not properly secured at time of accident. Scratches consistent with minor fall.
- Blood Group: B+
- Alcohol: Not detected (0 mg/dL)
- Drugs Toxicology: Negative for all screened substances
- Dna Profile: Extracted and preserved for identification
- Blood Group: O+
- Pre Impact Scenario: Pulsar traveling SW to NE on Shankar Road towards junction. Activa traveling from Rajinder Nagar side and executing right turn towards Old Rajinder Nagar.
- Impact Configuration: Pulsar front collides with right center of Activa at intersection. Impact angle 75 degrees.
- Post Impact Dynamics: Activa rider thrown to right side, landing 4.2m from impact point. Pulsar falls to right side, slides 3.1m. Pulsar rider falls to left, minimal travel distance.
- Speed At Impact: Pulsar: 52-58 kmph (calculated from skid mark length 4.2m, friction coefficient 0.7 for dry bitumen, and residual impact velocity from damage analysis). Activa: 8-12 kmph (typical turning speed).
- Avoidability: At speed of 40 kmph (legal limit), Pulsar could have stopped in 15.5m total (thinking + braking distance). From skid mark evidence, Pulsar was at least 8m from impact point when emergency braking initiated. At legal speed, collision was avoidable. At actual speed (55 kmph), stopping distance required was 25m, making collision unavoidable from point where braking started.
- Violation: Speed exceeding legal limit was the primary causative factor. Signal violation/secondary as signal was non-functional but traffic police manual direction was ignored.
- 18:20:03 - White Activa enters frame from bottom (Rajinder Nagar side), speed low, indicator blinking for right turn
- 18:20:05 - Red Pulsar enters frame from left (Shankar Road, Karol Bagh side), speed visibly high
- 18:20:06 - Traffic constable visible at junction, left hand raised signaling STOP for Shankar Road traffic
- 18:20:07 - Pulsar does not stop, continues at same speed into junction
- 18:20:07.5 - Pulsar front collides with right side of Activa

- 18:20:08 - Activa rider airborne, falls near road edge
- 18:20:09 - Pulsar rider falls, gets up at 18:20:12
- 18:20:14 - Constable runs towards Pulsar rider
- 18:20:18 - Constable grabs Pulsar rider by arm
- Time stamp verified: Camera clock accurate within 2 seconds of IST
- 18:19:45 - Red Pulsar passes ATM at high speed, rider wearing red t-shirt, delivery bag visible
- 18:19:52 - Pulsar continues towards junction (towards St. Stephen's Hospital), brake light not visible at any point
- 18:20:30 - Several people seen running towards junction
- Conclusion: CCTV footage corroborates witness statements. Confirms overspeeding, disregard of traffic police signal, and sequence of collision. Time stamps consistent with timeline.
Opinion text: Cause Of Accident: The accident occurred primarily due to overspeeding by the rider of Bajaj Pulsar DL2SBP1234 (speed 52-58 kmph against limit of 40 kmph) and failure to obey manual traffic police signal to stop. The speed made it impossible for the rider to stop or avoid collision when the Activa legally executed its turn.

EVIDENCE SUMMARY
PHYSICAL EVIDENCE
Item 1:
VEH-001 - Bajaj Pulsar DL2SBP1234 (Damaged)
Item 2:
VEH-002 - Honda Activa DL5SCT5678 (Damaged)
Item 3:
Accused's smartphone (Samsung Galaxy, IMEI: 358123456789012)

Item 4:
Accused's driving license DL/032021/0789456
Item 5:
Victim's driving license DL/042018/0456789
Item 6:
Blood sample of accused (2ml, Vial ID: BLD-0452-A)
Item 7:
Blood sample of victim (2ml, Vial ID: BLD-0452-B)
Item 8:
Broken vehicle parts from accident site
DIGITAL EVIDENCE
Item 1:
CCTV footage from St. Stephen's Hospital Gate 2
Item 2:
CCTV footage from Canara Bank ATM, Shankar Road
Item 3:
PCR van dashcam footage
Item 4:
Photographs of accident site (25 frames)

Description

Medical report:
Document ID: 01f76050-0a9e-4ccb-b87b-ea1a1c4f18ca
Report number: FIR/2024/DL/PSRKP/0452
Report date: 13 August 2026
Patient name: Rajesh Kumar Sharma
Doctor name: Dr. Anjali Mehta
Hospital name: St. Stephen's Hospital, Tis Hazari, Delhi - 110054
Observations: - Alleged History: Road Traffic Accident at Shankar Road T-Point at approximately 18:20 hours.
- Patient riding scooter, hit by speeding motorcycle from side. Thrown off vehicle and landed on road.

- Helmet worn at time of accident.
- Brought Dead: False
- Condition On Arrival: Conscious but disoriented, GCS 13/15 (E3 V4 M6), in severe pain, bleeding from scalp wound
- Blood Pressure: 100/70 mmHg
- Pulse: 112/min
- Respiratory Rate: 24/min
- Temperature: 98.4°F
- Spo2: 94% on room air
- Pain Score: 9/10
- Item 1: Injury Id: INJ-001, Type: Laceration, Location: Scalp, right parietal region, Size: 6cm x 2cm x 1cm deep, Description: Irregular wound with active bleeding, visible periosteum, no skull bone visible, Cause: Impact with road surface
- Item 2: Injury Id: INJ-002, Type: Abrasion, Location: Face, right cheek and forehead, Size: Multiple, covering 12cm x 8cm area, Description: Road rash, dirt and debris embedded in wounds, Cause: Sliding on road surface
- Item 3: Injury Id: INJ-003, Type: Closed fracture, Location: Right femur, mid-shaft, Description: Deformity of right thigh, swelling, abnormal mobility, crepitus present. X-ray confirmed comminuted fracture mid-shaft femur with displacement., Cause: Direct impact from vehicle collision
- Item 4: Injury Id: INJ-004, Type: Fracture, Location: Right clavicle, middle third, Description: Tenderness and deformity over right clavicle. X-ray confirmed displaced fracture., Cause: Fall on right shoulder
- Item 5: Injury Id: INJ-005, Type: Fractures, Location: Ribs 3rd, 4th, 5th on right side, anterior, Description: Chest X-ray shows fractures of right 3rd, 4th, 5th ribs anteriorly. No flail segment. Lung fields clear., Cause: Impact trauma
- Item 6: Injury Id: INJ-006, Type: Abrasion, Location: Right forearm and elbow, Size: 15cm x 6cm, Description: Deep abrasion, oozing, Cause: Road contact
- Item 7: Injury Id: INJ-007, Type: Abrasion, Location: Left knee, Size: 5cm x 4cm, Description: Superficial abrasion, Cause: Road contact
- Test: X-Ray Skull AP and Lateral - Finding: No skull fracture. Normal study.
- Test: X-Ray Right Femur AP and Lateral - Finding: Comminuted fracture mid-shaft right femur. 2.5cm shortening. Angulation present.
- Test: X-Ray Right Clavicle - Finding: Displaced fracture middle third right clavicle.
- Test: X-Ray Chest PA - Finding: Fracture right 3rd, 4th, 5th ribs anteriorly. No pneumothorax or hemothorax. Lung fields clear.
- Test: CT Scan Head (Plain) - Finding: Small subdural hematoma right fronto-parietal region (8mm thickness, 3cm x 4cm). Midline shift 4mm to left. No mass effect. Basal cisterns patent.
- Test: FAST Ultrasound Abdomen - Finding: Grade II liver laceration right lobe (3cm x 2cm). No free fluid in Morrison's pouch, splenorenal recess, or pelvis. Other organs normal.
- Hemoglobin: 10.2 gm/dL
- Tlc: 12000/cumm
- Platelets: 2.4 lakhs/cumm
- Blood Sugar: 130 mg/dL (Random)
- Blood Urea: 32 mg/dL
- Serum Creatinine: 0.9 mg/dL
- Liver Function: Normal
- Hiv Hbsag Hcv: Negative
- Blood Alcohol Level: Nil (0 mg/dL)
- Toxicology Screen: Negative for common drugs of abuse

Opinion text: Nature Of Injuries: Grievous
Danger To Life: Yes, at time of admission due to head injury and potential for deterioration
Weapon Used: Not applicable - Injuries due to road traffic accident
Alcohol Intoxication: Not detected
Consistency With Alleged History: Injuries are consistent with high-velocity side impact from motorcycle and subsequent fall on road. Pattern of injuries matches described mechanism.
Duration Of Hospitalization: Expected 3-4 weeks minimum
Permanent Disability Likely: Possible - Right lower limb may have residual shortening/limitation

- Light At Impact Point: Moderate (functioning street light 15m away)
- Traffic Signal Light: Non-functional since 12-10-2024
- Road Width Shankar Road: 12.5
- Road Width Rajinder Nagar Road: 10.0
- Divider Height: 0.15
- Divider Width: 0.8
- Footpath Width: 2.0
- Zebra Crossing Width: 4.0
- Zebra Crossing Present: Yes, faded markings

- Traffic Signal Present: Yes, 3-color LED signal
- Signal Functional: No, non-functional since 3 days
- Stop Line Present: Yes, painted white, visible
- Speed Limit Sign: Yes, 40 kmph board displayed
- No Entry Signs: None
- Speed Breakers: None at junction, one 50m before junction on Shankar Road
- VEHICLE 1 PULSAR Registration: DL2SBP1234 Make Model: Bajaj Pulsar 220F, Red Final Position: Middle of junction, 2.5m from divider end, front wheel facing East (towards Old Rajinder Nagar) Distance From Stop Line: 8.2m beyond stop line on Shankar Road Fallen Side: Right side
- VEHICLE 2 ACTIVA Registration: DL5SCT5678 Make Model: Honda Activa 6G, White Final Position: Near road edge of Rajinder Nagar Road, 1.5m from footpath, front wheel facing South Distance From Turning Path: 3.7m displaced from normal turning arc Fallen Side: Right side
- IMPACT POINT Location: At junction center, 6.5m from Shankar Road stop line, 4.8m from Rajinder Nagar Road edge Identified By: Maximum debris concentration, oil spill, deep scratch marks on road Point Of Impact Veh1: Front right side of Pulsar Point Of Impact Veh2: Right center body of Activa Impact Angle: Approximately 75-80 degrees (near perpendicular)
- Item 1: Marking Id: RM-001 Type: Skid mark Vehicle: Bajaj Pulsar Length: 4.2 meters Start: 2.8m before impact point End: At impact point Direction: South-West to North-East along Shankar Road Description: Single continuous skid mark, rear tyre, indicates hard braking just before impact
- Item 2: Marking Id: RM-002 Type: Scratch/Gouge mark Vehicle: Both vehicles Length: 1.8 meters Start: Impact point End: Final position of Activa Description: Metal scraping on road surface from fallen vehicles
- Item 3: Marking Id: RM-003 Type: Blood stain Location: Near final position of Activa, on road surface Size: 15cm x 20cm area Description: Blood spots from victim's head injury after falling, partially dried
- Item 4: Marking Id: RM-004 Type: Debris field Location: Around impact point extending 3m radius
- Item 1: Red plastic fragments from Pulsar fairing
- Item 2: White plastic pieces from Activa body panel
- Item 3: Glass pieces from Pulsar headlamp
- Item 4: Right side mirror of Activa
- Item 5: Marking Id: RM-005 Type: Oil/Coolant spill Location: At impact point Size: 30cm x 50cm Description: Engine oil leaked from Pulsar after impact
- Total Photographs: 25
- Photographer: HC Ramesh Kumar, Photography Section, PS Rajinder Nagar
- Camera: Canon EOS 1300D Digital Camera
- Frame 001-004: General view of junction from 4 directions
- Frame 005-008: Close-up of impact point and debris
- Frame 009-010: Skid marks with measurement scale
- Frame 011-012: Vehicle final positions from different angles
- Frame 013-014: Blood stains on road
- Frame 015-016: Traffic signal showing non-functional status
- Frame 017-018: Road signs and speed limit board
- Frame 019-020: View of St. Stephen's Hospital from junction
- Frame 021-022: Zebra crossing and stop line
- Frame 023-024: Overall scene from PCR van position
- Frame 025: Measuring tape showing road width
- St Stephens Hospital Gate 2: 30m North from impact point, CCTV camera present (CAM-SSH-G2-03)
- Canara Bank Atm: 50m South on Shankar Road, CCTV camera present (CAM-CB-ATM-01)
- Joshi Tea Stall: 35m South-East, Shop No. 7
- Bus Stop: 80m North on Shankar Road
- Reference Point A: South-East corner of St. Stephen's Hospital Gate 2 pillar
- Reference Point B: Electric pole No. SP/23/RJN
- Impact Point From A: 45m South, 12m East
- Impact Point From B: 22m North-West
- Measurement Tool: 30m Steel Measuring Tape, Police Issue
- Panchnama Conclusion: Scene inspected during night hours under artificial light and police halogen lamp. All

measurements taken, photographs clicked, evidence collected and sealed. Panchnama proceedings conducted smoothly without any interruption. The spot matches the description given by witnesses and is consistent with the accident dynamics.
Witnesses: - Mohammed Asif
- Prakash Chandra Joshi

Description
Vehicle inspection:
Document ID: bbb30b6a-c5d7-4f78-85c7-d5251065f80b
Report number: VIR/PSRKP/0452/2024
Inspection date: 16 October 2024
Vehicle registration: DL2SBP1234
Inspected by: ASI Rajender Prasad
Observations: - Front Fairing: Broken, multiple cracks, partially detached from frame
- Headlight Assembly: Completely smashed, glass fragments missing, bulb filament broken (hot shock deformation)
- Front Mudguard: Cracked
- Front Forks: Right fork bent backward approximately 5 degrees
- Front Wheel Rim: Bent at 3 o'clock position, 3mm lateral runout
- Front Tyre: MRF Zapper 90/90-17, burst on right side, 2 inch tear
- Right Handlebar: Bent downwards approximately 25 degrees
- Right Side Body: Scratched, paint transfer from white vehicle
- Engine Crankcase: Oil leak from right side gasket (impact stress)
- Rear View Mirrors: Right mirror broken, left mirror intact
- Brake Levers: Front brake lever in pulled position, suggesting brake application at impact
- Leg Guard: Right leg guard bent inwards
- Silencer: Scratched, minor dent
- Sarai Guard: Intact
- Number Plates: Front plate broken, rear plate intact, HSRP type
- Engine: Starts with difficulty, abnormal noise from crankcase area
- Compression: Normal (8.5:1 compression test OK)
- Clutch: Functional, free play 2mm (spec 2-3mm)
- Gearbox: All 5 gears engaging, no jumping
- Front Brake: Disc brake functional, pad thickness 3mm (spec new 4mm, min 1mm)
- Rear Brake: Drum brake functional, pedal free play 20mm (spec 20-30mm)
- Brake Fluid: Level adequate, DOT 4
- Chain Sprocket: Chain slack 35mm (spec 25-35mm), sprocket wear normal
- Steering: Handlebar movement restricted on right side due to bend
- Suspension Front: Right fork tube bent, seal leaking oil
- Suspension Rear: Nitrox shock absorbers normal, no leak
- Electrical: Headlight non-functional (smashed), indicators right front broken, rest functional
- Horn: Functional
- Speedometer: Needle stuck at 55 kmph mark, console cracked
- Fuel Tank: No leak, cap intact
- Front Brake Efficiency: Adequate at time of accident (pad thickness confirms regular maintenance)
- Rear Brake Efficiency: Adequate
- Brake Application Evidence: Front brake lever found in applied position post-accident, consistent with emergency

braking attempt
- Front Tyre: Burst due to impact, pre-accident tread depth 3.2mm (adequate), no irregular wear
- Rear Tyre: Tread depth 4.5mm (good), even wear, no cuts or bulges
- Tyre Pressure Estimated: Front 28 psi, Rear 32 psi (normal range from deformation pattern)
- Headlight: Smashed, filament analysis shows ON at impact (hot shock)
- Tail Light: Functional
- Indicators: Left functional, right front broken, right rear functional
- Reflectors: Front broken, rear present
- Sarai Guard: Present, ISI marked
- Leg Guard: Present, bent but absorbed impact
- Rear View Mirrors: One broken, one present
- Damage Summary: Moderate to severe frontal and right side damage consistent with collision at 50-60 kmph with another vehicle laterally. All damage is accident-related. Vehicle was in roadworthy condition before accident with all systems functional.

Description

Witness statement:
Document ID: bc74e5bb-238e-4eb3-88f9-376e412e1e40
Statement date: 15 October 2024
Witness name: Mohammed Asif
Witness address: Police Lines, Rajinder Nagar, New Delhi
Recorded by: Inspector Suresh Chandra
Statement text: I, Mohammed Asif, Traffic Police Constable Badge No. 3342, posted at Karol Bagh Traffic Circle, state that on 15.10.2024, I was on duty at Shankar Road T-point near St. Stephen's Hospital from 4 PM to 8 PM. My duty was to manage traffic at this intersection. The traffic signal at this T-point has been non-functional since 3 days and we are manually managing traffic with hand signals. At approximately 6:20 PM, I was standing at the junction managing traffic flow. I saw a red colored Bajaj Pulsar motorcycle coming from Shankar Road from Karol Bagh side at a very high speed. I estimate the speed was above 60 kmph. I signaled the rider to slow down as there was traffic at the junction, but he did not reduce speed. He was looking down at his mobile phone which was mounted on the handlebar, possibly checking map or delivery details. The traffic coming from Rajinder Nagar side had the right of way and vehicles were turning towards Old Rajinder Nagar. One white Honda Activa scooter was taking a legal right turn from Rajinder Nagar side towards Old Rajinder Nagar. When this Activa was in the middle of the turn, the red Pulsar coming at high speed from Shankar Road side entered the junction against my hand signal which indicated STOP for vehicles from his side, and directly collided with the right side of the Activa. The impact was so severe that the Activa rider was thrown off the scooter and landed on the road about 10-12 feet away. The Pulsar rider also fell down but got up quickly. He tried to pick up his bike to leave the spot. I immediately ran towards him and caught him. With the help of some public

Generated: 13-08-2026 18:18 Confidential - For Official Use Only
persons, I made him sit on the footpath. I called the PCR on 100 number from my mobile at 18:21 hours. The PCR van arrived at about 18:30-31 hours. I also called for an ambulance from St. Stephen's Hospital which is just opposite. The ambulance came within 5-7 minutes and took the injured scooter rider to the hospital. I handed over the Pulsar rider to the PCR staff and also gave my initial account to them. I can identify the accused person, he was wearing a red Zomato t-shirt. The victim was wearing a helmet which probably saved his life. The accused was also wearing a helmet. I am making this statement voluntarily and it contains true facts of what I witnessed.

IDENTIFICATION OF ACCUSED
Can Identify: True
Identification Details: Accused was wearing red Zomato t-shirt, aged around 25-28 years, slim build, height approximately 5'7"
Statement Verified: True
Witness Signature: Mohammed Asif (Signed)
Io Signature: Suresh Chandra, Inspector

S.No. 19

Description
Witness statement:
Document ID: f3d15543-ad32-4299-8352-dc95ddb4907f
Statement date: 15 October 2024
Witness name: Prakash Chandra Joshi
Witness address: Shop No. 7, Shankar Road, Opposite Gate No. 2, St. Stephen's Hospital, New Delhi
Recorded by: Inspector Suresh Chandra
Statement text: My name is Prakash Chandra Joshi. I run a tea stall on Shankar Road for last 22 years. My shop is exactly opposite the gate number 2 of St. Stephen's Hospital. On 15th October 2024, as usual my shop was open. Around 6:15-6:20 PM, I was making tea for some customers. I heard a loud screeching sound of brakes followed by a big thud sound. I immediately came out of my shop and saw that two motorcycles/scooters had collided at the T-point just 30-35 feet from my shop. One person was lying on the road near the divider, another person was getting up. I saw that a red motorcycle had crashed into a white Activa scooter. The traffic policeman who was on duty there, I know him as Asif bhai, he immediately ran and caught the red motorcycle rider. The red motorcycle rider was trying to leave but Asif constable caught his arm and stopped him. I also went near to help. The person who fell on the road was bleeding from his head and leg. His leg was bent in wrong direction, I think it was broken. He was crying in pain. I helped the traffic constable to shift the injured person to one side of the road safely so that no other vehicle hits him. I also noticed that the red motorcycle rider was wearing a t-shirt of some food company, red color t-shirt. He was also having a delivery box on his motorcycle. The traffic constable was scolding him for overspeeding and jumping signal. I have seen many accidents at this T-point over the years because vehicles come very fast from Shankar Road and don't stop even when traffic signal is not working. The al-bulance from the hospital came quickly as it is just opposite. Police also came within some time. I gave water to the injured person before ambulance came. I have also given my name and mobile number to the police when they came. Whatever I have said is true and I can identify both the vehicles and the persons involved if called to do so.
