

SITE PLAN - ACCIDENT SCENE

Case: FIR/2024/DL/PSRKP/0452

Date: 13-08-2026

SITE PLAN

Plan Id: SP/PSRKP/0452/2024

Date Prepared: 2024-10-16

Prepared By: Inspector Suresh Chandra, IO

Drawn To Scale: Scale 1:200 (1cm = 2m)

Orientation: North at top of drawing

LEGEND

SYMBOLS

Circle Filled: Impact point

Rectangle Red: Bajaj Pulsar DL2SBP1234 - Final position

Rectangle White: Honda Activa DL5SCT5678 - Final position

Dashed Line Pulsar: Pre-impact path of Pulsar

Dashed Line Activa: Pre-impact path of Activa

Wavy Line Skid: Skid mark (4.2m)

Star Red: Blood stain location

Triangle Camera: CCTV Camera locations

Circle Streetlight: Street light poles

Shaded Building: St. Stephen's Hospital

Square Atm: Canara Bank ATM

Square Shop: Joshi Tea Stall

Dotted Divider: Road divider

Solid Zebra: Zebra crossing

Thick Stopline: Stop line

Crossed Signal: Non-functional traffic signal

ROAD GEOMETRY

ROAD 1

Name: Shankar Road

Direction: Runs North-East to South-West

Width: 12.5

Lanes: Two lanes each direction, divided by concrete divider

DIVIDER

Type: Concrete, raised, 0.15m height, 0.8m width

Start: Continuous from 500m SW to junction, gap of 12m at junction for crossing

Shoulder: 0.5m on each side

Footpath: 2.0m on both sides

ROAD 2

Name: Rajinder Nagar Main Road

Direction: Approaches junction from South, continues as Old Rajinder Nagar Road to East

Width: 10.0

Lanes: One lane each direction

Divider: None

Footpath: 1.5m on both sides

Junction Type: T-junction (Three-arm intersection)

Junction Angle: Road 2 meets Road 1 at approximately 85 degrees

ROAD MARKINGS

ZEBRA CROSSING

Location: Across Road 2 at junction mouth

Width: 4.0

Stripes: 12 stripes, white paint, faded but visible

Condition: Fair, repainting needed

STOP LINE

Location: On Shankar Road, before junction

Distance From Junction: 5.0m from junction edge

Width: 300mm

Color: White

Condition: Visible

Lane Markings: Dashed white lines on Shankar Road, faded on Road 2

Give Way Signs: Present on Road 2 approach

TRAFFIC SIGNAL DETAILS

Location: Center of junction, overhead on gantry

Type: 3-color LED (Red, Amber, Green)

Status At Time Of Accident: Non-functional (confirmed by multiple sources)

Last Functional: 12-10-2024 (3 days before accident)

Complaint Filed: Yes, by Traffic Constable Asif on 13-10-2024 to Traffic Circle Office

Manual Control: Traffic Constable deployed for manual regulation

LIGHTING INFRASTRUCTURE

STREET LIGHTS

Item 1:

Pole Id: SP/23/RJN

Type: LED, 150W

Height: 9m

Location: North corner of junction

Distance From Impact: 15

Status: Functional

Item 2:

Pole Id: SP/24/RJN

Type: LED, 150W

Location: South side Shankar Road, 40m from junction

Status: Functional

Item 3:

Pole Id: SP/25/RJN

Type: LED, 150W

Location: On Road 2, 20m from junction

Status: Non-functional

Item 4:

Pole Id: SP/26/RJN

Type: Sodium Vapor, 250W

Location: East side, Old Rajinder Nagar Road, 30m from junction

Status: Functional

Item 5:

Pole Id: SP/27/RJN

Type: LED, 150W

Location: Shankar Road North, 60m from junction

Status: Non-functional

Item 6:

Pole Id: SP/28/RJN

Type: LED, 150W

Location: Shankar Road South, 70m from junction

Status: Functional

Overall Lighting: Moderate - 4 of 6 lights functioning in 100m radius

LANDMARKS AND REFERENCES

Item 1:

Landmark: St. Stephen's Hospital Gate 2

Location: North side, 30m from junction center

Coordinates: 28.6381, 77.1923

Item 2:

Landmark: Canara Bank ATM

Location: South side, Shankar Road, 50m from junction

Coordinates: 28.6375, 77.1924

Item 3:

Landmark: Joshi Tea Stall (Shop No. 7)

Location: South-East corner, 35m from junction

Coordinates: 28.6377, 77.1926

Item 4:

Landmark: Bus Stop

Location: Shankar Road North, 80m from junction, opposite hospital

Coordinates: 28.6384, 77.1921

Item 5:**Landmark:** Electric Pole SP/23/RJN**Location:** North corner of junction, 15m from impact point**Coordinates:** 28.6379, 77.1923**MEASUREMENTS FROM REFERENCE POINTS****REFERENCE 1 ELECTRIC POLE SP23****To Impact Point:** 22m South, 3m East**To Pulsar Final:** 18m South, 6m East**To Activa Final:** 25m South, 8m East**REFERENCE 2 HOSPITAL GATE 2 PILLAR****To Impact Point:** 45m South, 12m East**To Zebra Crossing:** 48m South, 10m East**ACCIDENT RECONSTRUCTION POSITIONS**

Pre Impact Path Pulsar: Vehicle approaches from SW on Shankar Road, traveling NE in right lane. Crosses Canara Bank ATM at 60 kmph (CCTV). Approaching junction, does not stop at stop line. Enters junction at 52-58 kmph.

Pre Impact Path Activa: Vehicle approaches from South on Rajinder Nagar Road. Reaches T-junction. Indicator on for right turn towards Old Rajinder Nagar. Begins legal right turn at 10 kmph.

Impact Configuration: Pulsar front (traveling NE) collides with Activa right side (turning right). Impact at 75-80 degree angle. Activa rider thrown to right/east, landing near road edge.

Post Impact Positions: Pulsar falls right side, skids to middle of junction facing East. Activa displaced right and comes to rest near South-East edge of junction facing South.

COORDINATES SYSTEM**Datum:** WGS84**Impact Point:** 28.6378, 77.1923**Measurements:** All measurements in meters from this point**Accuracy:** ±1 meter using GPS and measuring tape

Notes: Site plan drawn based on spot panchnama measurements, photographs, CCTV analysis, and revisiting the site on 16-10-2024. Plan accurately represents the scene as it existed at time of accident. Scale drawing attached to case file.
